THE LATEST.

The ovation tendered Dr. F. A. Cook, the American explorer, when he landed at Copenhagen yesterday, was one of general enthusiasm. He was greeted by royalty and the populace as a hero who had accomplished a deed that the world had been looking forward to for centuries. The crowds were so eager to get a look at the great discoverer that his clothes were almost torn off as he passed through the streets. He repeated the stories of his exploits in a plain and convincing way. He answered all questions put to him by the hundreds of newspaper correspondents in a concise manner. His records of observations and data were so convincing that he left little room for doubt among the scientists who had come to Copenhagen to get the first proofs that the North Pole had been found. Dr. Cook cabled to President Taft that he had discovered the coveted pole, and he received a quick reply of congratulation.

Increasing industrial, agricultural and mining activity is indicated by advance sheets of the fortnightly statement of car surpluses and shortages compiled by President Hale, of the American Railway Association. The statement, which will be published September 10, will show that on September 1 the surplus of cars of all kinds has been reduced more than 40,000, bringing the surplus down to a little more than 100,000 cars of all kinds.

The entertainment of the Japanese commercial commissioners yesterday was largely in the hands of the Seattle Japanese, who for months had been preparing for the celebration of Japan day at the Alaska-Yukon-Pacific Exposition and collected \$10,000 to defray expenses. All Japanese in the Pacific Northwest who could conveniently go to Seattle to see the commissioners and the exposition did so.

The Japanese Foreign Office announced that the agreement between Japan and China was signed in Peking at 4 o'clock yesterday afternoon. The text of the agreement will be published in a few days. The agreement between the two Oriental Governments concerns "branching" railway concessions and the question has been at issue since early last spring.

It became known yesterday that four constables, operating an automobile "speed trap" at Newbury, Mass., held up the presidential automobile for alleged speeding and detained President Taft for a few minutes. The President was driving from Beverly to Haverhill to see Associate Justice Moody, of the United States Supreme Court, who is ill at his home.

The New York Stock Exchange can continue to enforce a resolution of its board of governors prohibiting its members from dealing with members of the Consolidated Stock Exchange under a decision rendered by Justice Crane, of the New York State Supreme Court.

The first step in a fight of certain tobacco growers against the new pooling pledge of President LeBus and the Burley Tobacco Society was taken at Cincinnati, when the Burley Tobacco Growers District Union No. 1, of the Equity Society was organized.

The incendiary who has been starting a number of fires at Evansville, Ind., continued his work last night and seven more stables were destroyed, making a total of thirty-four fires for the week. The police have no clue, but believe all the fires have been started by one man.

Corporal Lisle Crabtree, of Troop B, Second Cavalry, charged with the killing of his troop commander, Capt. John C. Raymond, has been found guilty and his punishment fixed at life imprisonment in the military prison at Leavenworth, Kan.

Two hundred members of the German Reichstag have accepted an invitation extended by Count Zeppelin to examine his airship and ride therein if they desired. He will take aloft about fifteen of his visitors at a time.

Mayor Franklin P. Stoy, of Atlantic City, was arrested yesterday afternoon on a warrant charging him with ignoring an order of the Attorney General, which notified the Mayor to enforce the law against Sunday selling of liquor.

Four well-known women of Hamilton, O., were injured, two seriously, when a horse attached to a carriage driven by Miss Phoebe Schaik, a music teacher, ran away. The carriage plunged down a bank and was wrecked.

John F. Bay shot and killed James M. Neely when he said he found Neely talking to Mrs. Bay in the back yard of the Bay home at Caruthersville, Mo.

President Taft's slight attack of sciatica had so far disappeared yesterday that he resumed his golf playing on the links of the Myopia Club.

Capt. Samuel C. Lemly, who was Judge Advocate General of the Navy at the time of the Schley court of inquiry, died yesterday.

AN ENTHUSIASTIC GREETING TENDERED AMERICAN EXPLORER AT COPENHAGEN

Welcomed by the Danish King and Crown Prince.

Clothes Almost Torn Off En Route To the Hotel.

Repeats Story of Finding the North Pole.

Brings Back Records of His Observations.

Cables President Taft and Gets a Quick Reply.

ANSWERS INQUIRIES CLEARLY.

DR. COOK AND TAFT EXCHANGE MESSAGES.

Beverly, Mass., Sept. 4.—President Taft received to-day from Dr. Frederick A. Cook at Copenhagen a cablegram in which the explorer announced finding the North Pole. To the explorer the President sent a cablegram of congratulation. The messages are as follows:

"Copenhagen, Sept. 4, 1909.—President, the White House, Washington—I have the honor to report to the Chief Magistrate of the United States that I have returned, having reached the North Pole.

"FREDERICK A. COOK."

"Beverly, Mass., Sept. 4, 1909.—Frederick A. Cook, Copenhagen, Denmark—Your dispatch received. Your report that you have reached the North Pole calls for my heartiest congratulations and stirs the pride of all Americans that this feat which has so long baffled the world has been accomplished by the intelligent energy and wonderful endurance of a fellow countryman.

"WILLIAM H. TAFT."

Copenhagen, Sept. 4.—Dr. Frederick A. Cook stepped from the steamer Hans Egede in Copenhagen harbor on the arm of the Crown Prince of Denmark at 10 o'clock this morning, unshorn and looking like a sailor before the mast. He sat down to dinner at 8 o'clock this evening in the city hall, the guest of a brilliant company of the capital's most distinguished men and women, arrayed in evening dress provided by the King's tailor.

Guest of the King.

The hours between these events were the busiest of his life. Polar exploration never afforded anything half so crowded with variety and excitement. They were hours of speech-making, hand-shaking, bowing to clamoring crowds, and then, after addressing the people, who almost tore him to pieces in their eagerness to see the discoverer of the pole, Dr. Cook was the recipient of formal welcomes at the hotel, where he is the Government's guest. There he passed through the hands of tailors, outfitters and barbers.

Pled With Questions.

Later he lunched with Maurice F. Egan, the American Minister, being piled incessantly for an hour with questions. He went through hundreds of telegrams, including congratulations from geographical societies of several nations, explorers and friends, offers of exploitation ranging from books to music hall engagements, and then hurried to the palace and gave the King and other members of the royal family a long account of his adventures. Returning to his hotel, he received a battalion of correspondents, who subjected him for another hour to a merciless cross-examination, demanding explanations of all the criticisms that have been leveled against his claims.

Answers Questions Concisely.

These questions Dr. Cook answered with the best temper, franky and fully. Whatever he was thought of Dr. Cook elsewhere, he has impressed all who talked with him here as a modest, frank and able man. Danish explorers and Denmark is the home of Arctic pioneers—were the first to endorse Cook's claims to the discovery of the pole and his methods of getting to the pole. Their opinions were based primarily on a general knowledge of Dr. Cook's character and former achievements. Only after consulting them confidentially and receiving the fullest pronouncement of their belief in the genuineness of his feat did the Danish Government give its official seal by telegram.

How It Looked At Pole.

"I think Rasmussen has obtained some information regarding his expedition from the Eskimos who he has learned it from the two with me. Rasmussen was not published shortly, possibly to-morrow.

"Concerning the ice around the pole, so far as I could see it was slightly more active there than at one or two degrees south. It drifted somewhat more to the south and east. Its general character is not very different from that at other places. We stayed around the pole for two days, making

WIFE OF INTREPID DISCOVERER WHO FOUND THE NORTH POLE

MRS. VIOLA D. COOK.

New York, Sept. 4.—A message from Mrs. Frederick A. Cook to-day informed her friend, Mrs. R. T. Davidson, of Brooklyn, that the explorer's wife is still in Portland, Me. She did not say when she would come to New York, but Mrs. Davidson said she expected her very soon.

Mrs. Cook's reluctance to talk about her husband's reported exploit was explained by Mrs. Davidson to-day. "I think," said Mrs. Davidson, "that Mrs. Cook is merely overcome by the magnitude of the news that came as unexpectedly to her as to the rest of the world. There is no reason why she should be unwilling to discuss her husband and his achievements, and she is well qualified to do so.

"Repeated of a conflict between Dr. Cook and his wife have no foundation."

Dr. Cook said there was a quantity of letters, telegrams and cablegrams waiting for the explorer's wife at the Davidson home in Brooklyn. She was sure that no messages from Dr. Cook were among them.

DR. COOK GIVES A DETAILED ACCOUNT OF HIS POLAR JOURNEY

Copenhagen, Sept. 4.—The most detailed account of his polar journey as yet given by Dr. Cook was gained from him by a large body of newspaper correspondents whom he met this evening at the Hotel Phoenix. Dr. Cook, at the request of the correspondents, consented to answer all questions.

First, he was asked whether or not the first account of his discovery of the pole could be accepted as entirely his own work. He replied in the affirmative, except for the obvious errors in transmission. He then explained the doubt about the 30,000 square miles discovery, saying that he meant they were able to study the deep sea or divide among the members of the party.

"This time," he continued, "we had started out to reach the pole and everything else was of secondary consideration. It was not possible to carry certain apparatus and it was impossible also to study the deep sea or divide among the members of the party. We carried all necessary simple instruments for astronomical observations and we were lucky to obtain observations virtually every day. The positions noted must have been nearly correct. We had three chronometers, one watch, compasses and meters. All were carefully controlled by each other from time to time. The watch, however, got out of order.

All Modern Instruments.

"We had all the modern instruments which other explorers have had, including thermometers, barometers and sextants of the latest models. It is possible that our observations were better than those of earlier days, but I do not assert that I am perfectly familiar with making astronomical observations, especially in the

COUNTY OPTION

Thorn In Side of Hoosier Republicans.

DEMOCRATS TO LEAVE ISSUE ALONE ALTOGETHER.

FORMER GOV. HANLY IN THE THICKEST OF FRAY.

INDIANA POLITICS TO DATE.

Indianapolis, Sept. 4.—(Special).—Politicians of both parties in Indiana are busy just now figuring out how two State conventions can be held next spring without adopting platforms mentioning the liquor traffic. The Democrats desire to adopt a platform in which no mention shall be made of the liquor problem, and let the Republicans shoulder the responsibility for whatever results from the county-option law in the future, a law which even now, after about one year's operations, promises to become in time one of the most odious ever enacted by a Hoosier General Assembly. The leaders have almost agreed to leave the liquor question in the dark entirely in the State convention, and it is now freely predicted that some will be the final decision. The law is a Republican measure, and leave it to them, the leaders are arguing. It will be an easy matter for the Democrats to solve the question.

Republicans in Quandary.

Not so the Republicans, and the omnipresent fact which makes it not so easy is J. Frank Hanly, former Governor and father of the county-option law. Well enough would the chiefs like to forget about the liquor question in the nominating convention and allow the platform to go before the people without even a hint at the liquor question. But they fear to adopt such a course. In fact, the Republicans are between the devil and the deep blue sea, politically speaking. If they declare in favor of the county-option law, and insert a clause as "we point with pride, etc.," they will be taken to task by several thousand Republicans in territory which has voted dry and which is now infested with blind tigers, social clubs, drug stores which vend liquor and "boot-leggers." On the other hand, if they do not "point with pride," there will be Frank Hanly to contend with, and Frank Hanly is no small potatoes in Hoosier politics. If anybody asks you.

Hanly Thorn In Side.

That Hanly is determined not to let his pet law fail by the wayside is proven by a report current that he has virtually taken out of the hands of the Attorney General the preparation of the State's side of the appealed case in the State vs. McPherson case. Being an ousted saloonkeeper of Noblesville, who believes the county-option law is unconstitutional and has set about to prove it so. When notice of appeal was filed Hanly, according to the report, heard of it and called at the office of Attorney General Bingham and offered his services in assisting the State in upholding the measure, which offer was accepted. The Attorney General, according to the report, was that the State's brief in the case had been filed. Started beyond expression, the Attorney General made a speedy investigation and found that Hanly had filed the brief bearing the Attorney General's name and the name of his assistants, the names of the law firm of which Hanly is a member, and that R. C. Minton, attorney for the Anti-Saloon League. Attorney General Bingham is an avowed candidate for the nomination for Governor in 1912, and is building his hopes on his activities in behalf of the temperance element. It is understood that he has been in the high-handed manner in which Hanly has stepped in and assumed the prerogatives of the Attorney General's office.

Hanly To the Breach.

Now the question is that if Hanly would go to the breach, he would measure, what would he not do if the Republican party should attempt to adopt a platform in the next convention ignoring him and his pet measure, which the leaders, it is emphatically declared, would delight in doing. The answer is apparent. That the nomination attempts to ignore Hanly it will have the biggest fight on its hands that the Republican convention ever undertook, and not only that, but after the convention, if it defeated Hanly, the Republican party would be compelled to defeat him all along the line of the resulting campaign. On the other hand, if Hanly wins, the question is, What will the dissatisfied counties do? Any one who has a solution for the vexing problem would be hailed with delight should he come to Indianapolis and lay the proof of his solution before certain Republican leaders.

Another Possibility.

Another possibility in the county-option fight is the decision of the Supreme Court on the McPherson case, which is scheduled to be handed down in October. If the court upholds the law the dissatisfied counties and the few leading counties of the State where the county-option elections have been held are expected to lose heavily in the Republican vote. If the court declares the law unconstitutional it is

freely predicted that Hanly will go into the convention determined to have the party declare for a similar law, drawn so as to avoid all possibility of its being declared unconstitutional. In that event there certainly would be some political scrapping such as has not been seen in Indiana in many years. Among the Republican leaders it is openly said that one of the problems which they have to solve and solve soon is how to appease the temperance forces without agreeing to endorse the county option law in the convention. One of them, a candidate for the important office, has declared that the liquor question is the greatest question which the Republicans have to meet, and that in his opinion, the best way to meet it is to keep still about it in the convention.

Law Enforcement Conferences.

An unexpected phase of the entire question has developed in the formation of the conference for the law enforcement conference which has been called to convene in this city October 4-5 under the auspices of the Anti-Saloon League. Gov. Marshall has declined, without stating his reason, to deliver the address of welcome, and this is taken to mean that the Democratic party of the State, as a party, will have nothing to do with the league and its work more than it has in the past, although the league forces have steadfastly declared that their movement is not a political movement. Hanly has not been invited to address the conference, it being reported that the league believes that "under the strained and artificial conditions of the conference, it would be a waste of time to place Hanly on the programme."

League Breaks With Hanly.

The failure to invite Hanly to participate in the league has been as meaningful as the league has broken with Hanly. His former right hand man, although considerable wonder is expressed that his name is not included among the list of speakers. One explanation given is that the league has been cautioned by the Republican leaders that it must not too intimate with the former Governor if it desires the support of the Republican party any longer. Another is that the league has come to believe that Hanly is a menace to its welfare and that it is gradually drawing away from him whenever possible. A third is that the league believes that Hanly has materially weakened, and that the thing for the league to do is to swing around and get in line for some recognition by the coming Republican convention. In other circles, the incident is taken as signifying that the league is going to pieces and that it is endeavoring to form new friendships in order to insure it a few more months of existence. Just what the league will ask of the Republican State convention will be determined in a meeting of the executive committee, which is to be held in this city next month. It is certain that the league has in mind to attempt State-wide prohibition, and whether it is certain, however, that the present temper of the Republican leaders promises anything but peace should the league forces go before the convention with such a demand.

Bitter Fight Promised.

That the Third congressional district is likely to be thrown into a fight all right, if not quite as bitter as that which is being waged in the State vs. McPherson case, is the opinion of Frank Cox in 1908 is the opinion of Frank Cox, Democratic district chairman, who was in Indianapolis this week. Cox, it appears, wants to be returned to Congress, while George Voight, of Jefferson, wants to be returned. Cox shall be relegated to the down and out club, more than willing to do his part toward placing him there. It is understood that the old Senator, who is willing to back Voight almost to a man and that already fences are being built and lines are being laid out for a contest scarcely less bitter than the Zenor-Cox fight.

Boosting "Cal" McCullough.

The Democrats of the State who are boosting State Senator Cal McCullough, of Anderson, State Treasurer, are said to have found a way out of a difficult situation, and it is now said that McCullough will be a candidate. When the proposed candidacy was first talked of, objections were raised because McCullough was a Republican Senator, and Democratic votes in the next General Assembly, when a United States Senator is to be elected, are too precious to be wasted on a Republican Senator, and the State treasuryship. However, someone discovered that even if McCullough were to be elected, Treasurer, it would not interfere with his sitting in the next General Assembly, and as the McCulloughs do not take his place until March 23, 1910, McCullough would have plenty of time to cast his vote for Senator, and even to sit through the entire session, if elected, would be disqualified to sit as a Senator, but legal advice is the subject that no disqualification would result.

CAPT. LEMLY DIES

SERVED DURING THE FAMOUS SCHLEY COURT OF INQUIRY.

Full Military Honors Will Be Accorded Former Judge Advocate General At Funeral.

Washington, Sept. 4.—Capt. Samuel C. Lemly, formerly Judge Advocate General of the navy, who became prominent in connection with the famous Schley court of inquiry, died at St. Elizabeth's Hospital in this city at 7 o'clock last night.

Full military honors will be accorded Capt. Lemly on the occasion of his funeral, which will take place from St. James Episcopal church next Monday morning. The cortege will consist of the Marine Band and two companies of marines. Interment will be made at the Arlington cemetery. Capt. Lemly was one of the best-known officers of the navy, and as a rear admiral he is said to have few, if any, equals in the navy establishment. He spent much of his life in Washington, and was commissioned Judge Advocate General for three consecutive terms, serving in that capacity after his transfer to the retired list June 17, 1902. Because of his important position, he had been conspicuous in many of the leading court-martial cases of the navy for a long time past. He leaves a widow and a daughter. Capt. Lemly's widow was a Miss Milliken, of this city.

Capt. Lemly was a native of North Carolina, where he was born fifty-six years ago, and was appointed a midshipman from that State in June, 1869. The honorary pallbearers will include Capt. W. F. Halsey, U. S. N.; Capt. A. G. Winterhalter, U. S. N.; Commander C. W. Dyson, U. S. N.; Medical Director G. R. Harmon, U. S. N.; Paymaster E. D. Potter, U. S. N.; and Col. C. H. Luchmeier, U. S. M. C.

ORVILLE WRIGHT'S FIRST FLIGHT IN GERMANY.

American Aviator Warmly Congratulated After Remaining In Air For Twenty Minutes.

Berlin, Sept. 4.—Orville Wright gave an exhibition flight in his aeroplane at the Tempelhof parade ground this afternoon, starting at 4:55. Ambassadors and Mrs. Hill, Consul General, and Mrs. Thackeray and the members of the Embassy were at the starting place, while the parade ground was filled with an interested throng.

CAPT. LEMLY DIES

SERVED DURING THE FAMOUS SCHLEY COURT OF INQUIRY.

Full Military Honors Will Be Accorded Former Judge Advocate General At Funeral.

Washington, Sept. 4.—Capt. Samuel C. Lemly, formerly Judge Advocate General of the navy, who became prominent in connection with the famous Schley court of inquiry, died at St. Elizabeth's Hospital in this city at 7 o'clock last night.

Full military honors will be accorded Capt. Lemly on the occasion of his funeral, which will take place from St. James Episcopal church next Monday morning. The cortege will consist of the Marine Band and two companies of marines. Interment will be made at the Arlington cemetery. Capt. Lemly was one of the best-known officers of the navy, and as a rear admiral he is said to have few, if any, equals in the navy establishment. He spent much of his life in Washington, and was commissioned Judge Advocate General for three consecutive terms, serving in that capacity after his transfer to the retired list June 17, 1902. Because of his important position, he had been conspicuous in many of the leading court-martial cases of the navy for a long time past. He leaves a widow and a daughter. Capt. Lemly's widow was a Miss Milliken, of this city.

Capt. Lemly was a native of North Carolina, where he was born fifty-six years ago, and was appointed a midshipman from that State in June, 1869. The honorary pallbearers will include Capt. W. F. Halsey, U. S. N.; Capt. A. G. Winterhalter, U. S. N.; Commander C. W. Dyson, U. S. N.; Medical Director G. R. Harmon, U. S. N.; Paymaster E. D. Potter, U. S. N.; and Col. C. H. Luchmeier, U. S. M. C.

ORVILLE WRIGHT'S FIRST FLIGHT IN GERMANY.

American Aviator Warmly Congratulated After Remaining In Air For Twenty Minutes.

Berlin, Sept. 4.—Orville Wright gave an exhibition flight in his aeroplane at the Tempelhof parade ground this afternoon, starting at 4:55. Ambassadors and Mrs. Hill, Consul General, and Mrs. Thackeray and the members of the Embassy were at the starting place, while the parade ground was filled with an interested throng.

WE STAND UPON THE THRESHOLD OF FALL AND WINTER. WISE WOMEN WILL COME TO US AND MAKE PREPARATION.

SECOND AISLE.

American Dye Works

F. EDMOND KLEIN, Prop.

Enthusiastic Greeting Tendered American Explorer At Copenhagen.

(Continued From First Page.)

day's reception to Dr. Cook's good faith.

Banquet At City Hall.

The banquet this evening was held in the magnificent municipal building. Four hundred persons, many of them women, attended, while thousands congregated in the streets in a drenching rainstorm to catch sight of the explorer when he entered.

There was a preliminary reception in the lobby and spacious entrance hall. The spectacle, with all many of the men wearing orders, must have impressed the explorer by contrast with his recent experiences. The company marched upstairs to the air of "The Star-Spangled Banner."

In Seat of Honor.

After all had been seated, the Minister of Commerce, Johan Hansen, escorted Dr. Cook to the chair of honor amid a demonstration which caused him to color deeply. Minister Egan sat at Dr. Cook's right, with the Mayor of Copenhagen and Miss Egan beyond. Mrs. Gannoh, a wealthy Copenhagen woman, who has contributed extensively to Arctic exploration and has been closely identified with it, was at the chairman's left. The menu was an example of enterprise, with a lithograph of the Crown Prince greeting Dr. Cook and a map of the Arctic Circle, giving Dr. Cook's route and a facsimile of his autograph, with the date, was a reproduction of a souvenir he gave Miss Egan.

Speeches Teemed With Compliments.

The speeches teemed with compliments to Dr. Cook. The Mayor of Copenhagen said that the name was once more enrolled among the great explorers. Minister Egan briefly proposed a toast to the King of Denmark, and the Corporation President, in proposing a toast to the President of the United States, spoke of the pride that must be felt by the nation which could boast that it was her son who first planted the flag where no human being had ever before set foot.

The Minister of Commerce, in proposing the health of Dr. Cook, paid a warm tribute to "his noble deed." He thanked him for spending a little time in Denmark, and said that the privations of the explorer were appreciated more by the men of Denmark there tonight, whose names were written with honor on the ice rocks of Denmark's northern coast.

Try For South Pole.

When the nation was first thrilled by the news of Cook's exploit he said he must confess there was some skepticism, but afterward he was confirmed and he hoped that Dr. Cook would try for the South Pole with the same success.

"When the Minister raised his glass to 'our noble guest' there were nine hurrahs.

Dr. Cook Replies Modestly.

Dr. Cook replied in a few words, modestly saying: "I thank you very much for the warm and eloquent words, but I am unable to express myself properly. It was a rather hard day for me, but I never enjoyed a day better. The Danes have

taken no active part in polar exploration, but they have been of much importance as silent partners in almost all Arctic expeditions in recent years. The most important factor in my expedition was the Eskimo and dog world, and I cannot be too thankful to the Danes for their aid. The Eskimo and now they also have instituted a mission at Cape York. Had I not met with the right Eskimos and the right dogs and the right provisions, I could never have reached the pole. I owe much to the Danish nation for my success.

Toasts To Mrs. Cook and Eskimos.

A telegram was read conveying the congratulations of the King of Sweden for a brilliant deed, of which the American people may rightly be proud. Toasts to Mrs. Cook and to the Eskimos of the party were drunk. Two hundred students in uniform marched in when the company returned to the lobby and the spacious entrance hall. The spectacle, with all many of the men wearing orders, must have impressed the explorer by contrast with his recent experiences. The company marched upstairs to the air of "The Star-Spangled Banner."

GREAT OVATION WHEN NOTED EXPLORER LANDED.

Early Incidents of Day At Copenhagen—Feted By Royalty and Populace.

Copenhagen, Sept. 4.—Dr. Frederick A. Cook, the American explorer returning to civilization from his discovery of the North Pole, came into Copenhagen harbor at 10 o'clock this morning on board the steamer Hans Egede from Obenhuus. Dr. Cook was standing on the bridge of the vessel, which flew the American flag at his mizenmast.

Crown Prince Christian of Denmark; Maurice Egan, the American Minister; the Danish Minister of Commerce, and Committee representing public bodies, boarded the Hans Egede and welcomed Dr. Cook in the name of the nation and the city.

Dr. Cook was escorted ashore by Prince Christian. The explorer was cheered by great crowds. An immense throng followed through the streets to the Meteorological Institute, where he made a brief speech.

Weather-Beaten and Shabby.

It was a weather-beaten and shabby suit that had been loaned to him by a seaman. On his head was a dispirited old cap, and his feet were clad in winter shoes of the same kind. He was a strange figure for the center of such a brilliant scene as greeted his return to civilization. Ships and yachts on every side were gay with flags, and the store and piers were crowded with people.

Greeted By Royalty.

Two big American flags flanked the landing stage where Crown Prince Christian and other notable personages waited the appearance of the Hans Egede. Hundreds of small boats containing sightseers swarmed over the waters of the harbor. Many of these boats were filled with American tourists waving the stars and stripes. When the Hans Egede was about to away slowly coming in with an entia-

slate following of small craft in her wake, Crown Prince Christian and the members of his staff embarked on a launch which took them to the side of the steamer bearing the explorer. The anchor was dropped and the Crown Prince sprang up the gangway. Dr. Cook, at the same time, appeared at the head of the ladder and awaited the Prince.

Embraced by Prince.

Prince Valdemar, brother of King Frederick, in an Admiral's uniform, accompanied by a party of naval officials, city officials, delegates from societies and the Minister of Commerce, followed the Crown Prince up the side of the steamer and the explorer was almost smothered in the friendly group of uniforms and officials in black coats and silk hats.

"Did you reach the North Pole, Dr. Cook?" asked the correspondent of the Associated Press.

"Yes, I did," replied Dr. Cook confidently.

After much handshaking, Crown Prince Christian said:

"Come ashore with me, please. The people are waiting to see you." Dr. Cook said something about his baggage.

"My people will look after your baggage," the Crown Prince replied, and led the Doctor to the launch.

When the launch approached the pier with Prince Christian and Dr. Cook side by side a tremendous roar of cheers burst out from the people on shore and

WORLD'S RECORDS BROKEN WITHIN THE LAST TEN DAYS.

In the heavens, in the waters, under the waters and on top of the earth men have broken records to smash within the last ten days. Here are some of the exploits:

August 27—M. Henri Farman breaks long-distance flying record in heavier-than-air machine, being up three hours, 14 minutes, 25.24 seconds, and flying a distance of 118.06 miles.

August 28—Glenn H. Curtiss flies 122.5 miles in 15 minutes, 50.35 seconds.

August 30—United States submarine boat Narwhal breaks submarine speed record.

September 1—Dr. Frederick Albert Cook, of Brooklyn, N. Y., announces discovery of the North Pole on April 21, 1908.

September 2—Cunard Line steamship Lusitania breaks trans-Atlantic records, covering distance between Dant's Rock, out of Queenstown, and Ambrose channel lightship, in 4 days, 11 hours and 42 minutes, an average speed of 25.55 knots an hour.

from the assemblage of small craft, including yachts, motorboats, landing boats from the Russian warship in the harbor and racing shells clustered thick about the pier.

Dr. Cook Makes Brief Speech.

Dr. Cook stepped ashore, and in an instant the police were powerless to make a way for the party. Dr. Cook and those about him were engulfed and swept along by a clamorous crowd. Maurice F. Egan, the American Minister, and the Danish officials literally fought their way desperately to a point near the Meteorological building, Dr. Cook was bruised and capless, and part of his clothes were torn.

"I used to be a football player, but this is the worst I ever saw," he said.

Dr. Cook and Mr. Egan finally succeeded in reaching a balcony of the institute, where people were waiting and the adjoining back yard frantically when they appeared. Mr. Egan waved his hand toward Dr. Cook as an introduction. The explorer made a brief address in English.

Invited To Banquet.

"Before retiring to your much-needed rest, Dr. Cook, I hope you will give us an opportunity of being your welcome to Denmark. I thank you on behalf of my countrymen for the noble deeds which you so successfully have performed."

The Minister then invited Dr. Cook, on behalf of the Government, the municipality and the Geographical Society "as our honored guest," to a banquet to-night at the town hall.

Dr. Cook thanked the minister briefly for the very kind invitation, giving already granted in Denmark, and with which I feel most delighted.

Mr. Hansen then raised a bottle of champagne, then led in "three cheers and a long life for Dr. Cook."

Has Abundant Proofs.

Dr. Cook will stay in Copenhagen for a few days as the guest of the Government. He will then go to Belgium. "I have been to the North Pole, and I have brought back the most exact observations, absolutely proving my statements. I have kept a diary throughout my entire expedition, in which I recorded the most minute details."

Most Exact Observations.

In the course of the interview with the Associated Press representative on board the Hans Egede, Dr. Cook declared with great emphasis: "I have been to the North Pole and I have brought back the most exact observations, absolutely proving my statements. I have kept a diary throughout my entire expedition, in which I recorded the most minute details."

achievement; that is for the head of his country to do."

His Statements Confirmed.

Daugard Jensen, the Danish inspector of North Greenland and the highest official of that region, who spent two months in the company of Dr. Cook, is absolutely satisfied regarding the reliability of Dr. Cook's statement that he reached the North Pole. Apart from his own observations, Inspector Jensen conferred with the Danish Polar

CAUTIONS THE PUBLIC ABOUT INTERVIEWS.

Copenhagen, Sept. 4.—Dr. Cook is particularly desirous that the public refrain from accepting all alleged interviews by the various newspapers here as authentic and while it would not be fair to him to attempt to quote the recollections of his conversation as a verbatim interview, he has no objection to a recital of some of the main points he mentioned.

explorer, Knud Rasmussen, who obtained from the Cape York Eskimos a description of Dr. Cook's journey.

Rasmussen is the only European who fully understands the language of the Cape York Eskimos, from among whom Dr. Cook's companions of his expedition were selected. Rasmussen told Jensen that the stories of these Eskimos confirmed Dr. Cook in all the essential details of his narrative. The corroborated statement that the journey ended quite voluntarily, no ice obstacles preventing its continuance.

NOTED EXPLORER HOLDS AUDIENCE WITH KING.

Offers Further Proof of His Discovery and Replies Sharply To Critics.

Copenhagen, Sept. 4.—King Frederick received Dr. Cook in private audience at half past 3 o'clock this afternoon. The audience lasted for half an hour.

The Queen and her three daughters, Princesses Ingeborg, Thyra and Dagmar, were present.

Dr. Cook's Reply To Critics.

Dr. Cook's reply to his critics is as follows: He has the records of his expedition, together with certain scientific data and proofs, which he will submit to the world of science for its judgment.

He is confident that the verdict will be a substantiation of his claims. He questioned on the skepticism of his story arising from the fact that he was the only white man to take bearings and observations, and he answered that with other well-authenticated expeditions one scientific man of the party took all the observations. Dr. Cook left at the pole in a metal cylinder, a small American flag and the records of his voyage. He did not have a staff on which to erect the flag, nor could the stability of a small flag have been assured.

Belongs To Uncle Sam.

Dr. Cook is of the opinion that the United States may fairly claim, for whatever it may be worth, jurisdiction, his trip readily and answered all the questions put to him. Among his interrogators was the Russian Minister, who was an eager seeker for information.

Hard Goal To Reach.

Dr. Cook said he was strongly of the opinion that no white man could reach

found conditions favorable I continued on my way to the pole. I discovered two hitherto unknown islands.

"We missed the depots which previously had been established, but we came accidentally upon one of Melville's depots, where we found provisions and instruments in an excellent state of preservation."

"Owing to the smallness of my expedition our requirements were not large. For the same reason we were able to proceed quickly. On some days we covered as high as twelve miles, which is an extraordinary speed."

"As I approached the pole the Eskimos with me were utterly scared at the meteorological conditions."

Shoots Game With Arrows.

"On the return trip our provisions became entirely exhausted. No animal life was visible, and for three days we had nothing. Then in a crevice of ice we caught sight of several walrus."

"I had only a few cartridges left. I crept along the ice on my stomach, approaching the animals slowly as a vermin interview, he has no objection to a recital of some of the main points he mentioned."

"We then broke up our only sledge and made bows and arrows of the wood, as do the Eskimos, and we secured game with these arms."

"Again near Cape York we were virtually on the point of starvation, when we found a young seal sleeping on the ice."

"At Cape York itself we found traces of muskoxen, which we tracked and killed. Some photographs even were taken. I am interested in the world of science for its judgment."

"From Upernivik to Egedesminde I sailed on the same ship that carried the MacIntosh and Franklin relief expeditions."

Dr. Cook's Reply To Critics.

Dr. Cook's reply to his critics is as follows:

He has the records of his expedition, together with certain scientific data and proofs, which he will submit to the world of science for its judgment.

He is confident that the verdict will be a substantiation of his claims. He questioned on the skepticism of his story arising from the fact that he was the only white man to take bearings and observations, and he answered that with other well-authenticated expeditions one scientific man of the party took all the observations. Dr. Cook left at the pole in a metal cylinder, a small American flag and the records of his voyage. He did not have a staff on which to erect the flag, nor could the stability of a small flag have been assured.

"At Minister Egan's lunch Dr. Cook looked hardy and healthy, like an athlete in splendid training. He discussed his trip readily and answered all the questions put to him. Among his interrogators was the Russian Minister, who was an eager seeker for information."

Belongs To Uncle Sam.

Dr. Cook is of the opinion that the United States may fairly claim, for whatever it may be worth, jurisdiction, his trip readily and answered all the questions put to him. Among his interrogators was the Russian Minister, who was an eager seeker for information."

PRESIDENT TAFT MAKES FIRST OFFICIAL COMMENT.

Cables Explorer Warmest Congratulations—Glad American Found the Coveted Spot.

Beverly, Mass., Sept. 4.—President Taft to-day made his first official com-

ment upon the reported discovery of the North Pole by Dr. Frederick A. Cook. In answering a cablegram sent to him by Dr. Cook reporting that he had reached the coveted point, Mr. Taft cabled back his warmest congratulations, declaring that the pride of all Americans had been aroused by the news and the report that the world-baffling feat had been accomplished by an American citizen.

President Taft has taken the keenest interest in the news regarding the discovery ever since the brief bulletin was received on Wednesday afternoon. Always a great newspaper reader, he has taken a deep interest in the controversy which Dr. Cook's feat has aroused among the Arctic explorers.

Minister Egan's cablegram of last Thursday to the State Department, announcing that Dr. Cook's achievement had been confirmed by the Danish Commissioner for Greenland, was repeated to the President, but he withheld any comment until receiving to-day the personal cablegram which Dr. Cook evidently filed as soon as he reached the Danish capital.

Writing a Book.

Dr. Cook has already written 100,000 words on his book. He accomplished much of this work while living for three months in a hut on Jones Sound. His paper became exhausted, but he had a supply of pencils, and he wrote mostly in microscopic characters between the lines of the book containing his diary. It will take much time to put this portion of his book in form for the printer. Dr. Cook is surprised and overwhelmed at his reception here. He expected to come into Copenhagen quietly, but instead he was almost mobbed by the great gathering of newspaper correspondents, artists, biographers, scientists, publishers and agents. Some photographers even tried to invade the American legation forcibly during the luncheon hour.

"THE POLE HAS BEEN REACHED WITHOUT DOUBT."

Cable Message Sent To Arctic Club From Copenhagen By Former Treasurer.

New York, Sept. 4.—Ralph L. Shainwald, formerly treasurer of the Arctic Club of America, cabled to the club from Copenhagen to-day declaring that the North Pole had been reached by Dr. Cook.

Mr. Shainwald went from Paris to Copenhagen to represent the Arctic Club in welcoming Dr. Frederick A. Cook. The message from Mr. Shainwald followed.

"COOK SENDS GREETINGS TO ARCTIC CLUB OF AMERICA. POLE HAS BEEN REACHED WITHOUT DOUBT."

The Arctic Club also received a message from Rear Admiral George W. Melville to-day reading as follows: "Do not give credence to reports that Cook has discovered pole."

"WE OWN IT."

Declares Vice President Sherman, Speaking of North Pole.

Utica, N. Y., Sept. 4.—"How does the ownership of the North Pole stand?" asked by an American? Vice President James S. Sherman was asked to-day. "Right on top of it," answered Mr. Sherman, smilingly.

"We own it, then?"

"Certainly. The United States flag was planted there by its discoverer, Dr. Cook."

"There is no commercial value in the discovery to the United States," he added. "The value is purely sentimental to us. It is a supreme honor to have made such a great discovery."

Another Peary "Booster."

London, Sept. 5.—The Sunday Observer says: "Dr. Cook reached the pole or not now will begrudge him a hearty welcome and his name finally will be enrolled among the world's most courageous and most resolute explorers."

Five Section Hands Killed.

Springfield, Ill., Sept. 4.—Five section hands, all residing at Auburn, near Springfield, were crushed to death today by the wheels of a box car, under which they had taken shelter from the rain. A freight engine had run into the car while they were huddled there.

Autumn Attire!

The early arrivals in Ladies' Raiment for fall and winter evidence a return to safe and sane dressing. Many hundreds of beautiful Dresses, Coat Suits, Waists and other garments are now on show here. They are distinctive and different. They conform to simple lines and natural proportions. This simplicity combined with elegant material, superior workmanship and a ravishing color range, forms an irresistible combination.

We consider our present offering sufficiently complete to warrant us in extending an invitation to our friends and patrons to call and get the first view of these splendid new creations.

Besten & Langen qualities as exemplified this season will enhance our reputation for superior garments.

In addition to what we now show, hundreds of pretty conceits are received by express daily. At this time we call your particular attention to the fine Tailored Suits, long graceful coats, just a little closer fitted than formerly, tailored in a faultless manner and made of such excellent materials as broadcloth, serge, diagonal stripes, fancy manish stripes and mixtures, homespun and other novelty weaves. The colors are black, navy, old blue, Atlantic, chicory, mustard, walnut, copper, wistaria and a dozen or more other soft, rich shadings.

One-Piece Dresses.

The designers have fairly outdone themselves in the present production of these simple dresses. We have them in silk, soft woolen materials, crepe de chine, silk Jersey cloth with plaited cloth bottoms, or with the messaline finish. Some are plain, some are partly braided, others are entirely covered with artistic braiding. Elegant jet embellishments are another attractive feature. All told our line is fairly sparkling with newness, originality and exclusiveness.

Drop in this week and inspect these garments. Whether you contemplate a purchase just now or not, we should be glad to wait on you.

Remember,
"Quality Counts"

Besten & Langen

INCORPORATED

The inevitable sequel of his journey is a properly equipped expedition to follow in his footsteps and verify his work. If Dr. Cook successfully guides such an expedition, of which Peary might fitly be the head, to him will belong forever the honor of being the first of the human race to penetrate the silence of the pole.

Italians Concede Victory.

Rome, Sept. 4.—The entire Italian press is extending an enthusiastic welcome to Frederick A. Cook, the American explorer, who reached Copenhagen to-day. Even Capt. Umberto Cagni, who accompanied the Duke of the Abruzzi to the polar regions in 1906, now that fuller reports have been received of the time it took Dr. Cook to travel from the eighty-second parallel to the pole, admits that Dr. Cook is the first human being to reach the North Pole.

Sverdrup Expresses Opinion.

Copenhagen, Sept. 4.—The famous explorer, Sverdrup, arrived here to-day from Christiania, where Dr. Cook. He said to a correspondent: "I have no doubt whatever that Dr. Cook reached the pole. He could not have had a better expedition than Eskimos and Eskimo dogs."

Big Offer For Dr. Cook.

New York, Sept. 4.—A theatrical manager of this city sent a cable message to-night to Dr. Cook offering him \$250,000 for 25 lectures on his experiences in the Far North.

NOTABLE CHANGE IN WELL-KNOWN BUSINESS HOUSE.

Bryce-Keller Company Succeeds the Johnson-Morgan Company and Brings New System To Store.

Among the many business changes now being made in Louisville, one of the most conspicuous and interesting is the announcement on Thursday, September 2, of the Bryce & Keller Company, successors to the Johnson-Morgan Company, men's clothing and furnishings store, building, Fourth and Jefferson streets.

This store was first opened about four years ago, but about five months ago it was sold to its new ownership and management. While the former name was retained for a while, it is evident that the new management contemplates some material changes in the system and arrangement of the store.

The officers of the new company are now widely known to the clothing trade, and of excellent standing in the commercial world.

Mr. A. C. Bryce, of Bryce Bros. Co., of Columbus, O., is president.

Henry J. Keller, vice president and resident manager of the new company, recently moved here with his family from Muncie, Ind., where he has been engaged in business more than twenty years. He comes highly recommended as a citizen and merchant, and is president of the Keller-Bryce Company, of Muncie, one of the largest clothing stores in Indiana.

J. P. Bryce, secretary and treasurer of the new company, has been a resident of Louisville for a number of years, and is well and favorably known to the people here. He will be the manager of the furnishing goods department.

assified advertising will sell most of the real estate in this community that is sold this month.

Five Section Hands Killed. Springfield, Ill., Sept. 4.—Five section hands, all residing at Auburn, near Springfield, were crushed to death today by the wheels of a box car, under which they had taken shelter from the rain. A freight engine had run into the car while they were huddled there.

ROAD TALK.

President Bosworth Issues
An Address

CALLS ON FARMERS TO SUPPORT
THE AMENDMENT.

WILL REMOVE BARRIER TO THE
PASSAGE OF LAWS.

REGARDING DEBT OF STATE.

Frankfort, Ky., Sept. 4.—(Special.)—President Joe F. Bosworth, of the Kentucky Good Roads Association, is sending out an address over the State urging support of the extensive campaign under way for the passage of the constitutional amendment which will be voted on in November. The Commissioner of Agriculture, in order to insure as wide circulation as possible, is sending the address of President Bosworth out to the farmers in the monthly crop reports.

President Bosworth says: "The Bosworth-Wyatt good road amendment to the Constitution of Kentucky, which passed the last Kentucky Legislature by its almost unanimous vote, and which is to be voted on at the next November general election, is as follows, to wit: 'The credit of the Commonwealth may be given, pledged or loaned to any county of the Commonwealth for public road purposes, and in such manner as may be provided by law, and when any such indebtedness is incurred, the same shall be paid by the county in which the same was incurred, in addition to the tax rate allowed under Section 17 of the Constitution of Kentucky, not exceeding 20 cents on the \$100 of the assessed valuation of said county for the purpose of paying the interest on said indebtedness and providing a sinking fund for the payment of said indebtedness.'

Section 17 of the Constitution of Kentucky forever prohibits the State from lending its aid, or in any manner helping the counties in road building, or taking any part whatever in behalf of the cause of good roads.

Section 18 of our State Constitution limits the power of any county to become indebted more than 2 per cent of the assessed valuation, thus making it impossible for the greater number of our counties to raise sufficient funds to do any road building at all.

Section 19 of our State Constitution provides that a county cannot levy exceeding 20 cents on each \$100 of taxable property therein for any purpose whatever, thus making it impossible for many of the counties to provide sufficient means to create a sinking fund and pay interest on the debt created to build roads.

As a consequence of these limitations and restrictions of the powers of the counties and also of the Commonwealth of Kentucky, good road building in this State has been a thing of the past since the adoption of our present Constitution.

This constitutional amendment will remove these restrictions, which are a barrier to the passage of such a system of road laws by our Legislature, as will enable our counties and our State, and permit them to build roads.

Section 18 of our State Constitution limits the power of any county to become indebted more than 2 per cent of the assessed valuation, thus making it impossible for the greater number of our counties to raise sufficient funds to do any road building at all.

How to Make the Fat Comfortable In Summer

If you are fat and have difficulty in breathing or walking or eating and if you find that the heat is exhausting to you during the heated term you will be interested in knowing that the famous Marmola prescription is now being prepared in tablet form and that one of these little tablets taken after each meal and at bedtime will reduce your fat at the rate of from 12 to 15 ounces per day, and they assist the body to throw away the fat already made in a natural manner. They are harmless and you will find that their use will build up your system to a higher degree of perfection than ever before. They have perhaps the greatest army of responsible men and women who have written of their effectiveness than any other prescription ever written. You need not diet or exercise and you may eat what you wish. The food you now eat turns into fat if you take a Marmola tablet after the meal, and more than that, you will strengthen your digestive organs that you will need no assistance in a short time even from Marmola Tablets. Every drug store sells a Marmola Tablet, and the Marmola Company, Dept. 403, Detroit, Mich., will send you a box of Marmola Tablets for only 75 cents everywhere.

happo our Federal Government, to join in maintaining a system of improved highways in all parts of Kentucky, the amount of the improvement, progress and development of Kentucky, and would be more than that, it is the comfort and convenience and improved condition of all the people. If this constitutional amendment is adopted, it will then be possible for Kentucky to make a system of good roads laws as in effect in the States of New York, New Jersey, Connecticut, Michigan, Massachusetts, California, Pennsylvania, and in fact, every other State where progress and advancement is being made in building and maintaining good roads, while our own Kentucky is at a standstill.

If you are in favor of good roads vote and work for the Bosworth-Wyatt good road amendment. It is submitted to the voters of the county for their ratification or rejection at a special election held for said purpose, in such manner as may be provided by law, and when any such indebtedness is incurred, the same shall be paid by the county in which the same was incurred, in addition to the tax rate allowed under Section 17 of the Constitution of Kentucky, not exceeding 20 cents on the \$100 of the assessed valuation of said county for the purpose of paying the interest on said indebtedness and providing a sinking fund for the payment of said indebtedness.

VALUABLE CHART

Prepared by Direction of the
Monetary Commission.

SHOWS FINANCIAL SITUATION
AT A GLANCE.

GEN. BELL TALKS OF TRIP TO
ALASKA.

A GREAT FUTURE PREDICTED.

Washington, Sept. 4.—(Special.)—One of the most valuable documents on finance issued by the Government has been compiled by the National Monetary Commission for use in framing the currency legislation which is now pending before the present Congress. The document comprises a series of charts, elaborately prepared, showing with mathematical precision almost every phase of the financial situation, not only in the United States but in foreign countries.

By means of lines these charts tell accurately the value of Government bonds in all countries from the time of their issuance until the present year. They give the exact account of currency in circulation in all countries, and recite the financial history of almost every important country, so that it can be reviewed at a glance. Only thirty copies of the document have as yet been printed. One of these copies has been presented to the assistant Secretary of the Treasury, who regards the work as one of the most important contributions to currency literature which he has seen.

A large part of the credit for it is given Mr. Andrews, director of the mint, under whose guidance it has been prepared. It is the first tangible work done by the Monetary Commission, and illustrates the care and scientific methods which that body is pursuing in its study of the currency question.

Incidentally, Gen. Bell recalled that thirty-one years ago he helped survey the Northern Pacific, and said he had never lost his love for that country. "Few, indeed, were the settlements then in the Dakotas, Montana, Idaho and Eastern Washington. I loved the wild, free life, and although I am not a young man, still the frontier, with all its activity, is just the place for me."

Stuart K. Lupton, of Tennessee, is transferred from Consul at Catania, Italy, to Consul at Karachi, India. Mr. Lupton has been in the consular service for a number of years in various capacities, and was the vice consul at Messina, Sicily, when that town was destroyed by earthquake.

Trade Falls Through. The Memphis, Tenn., Park Commission, at a former meeting here, agreed with the Southern Railway Company that the Park Commission would obtain possession of the piece of property selected by the Southern Railway Company for its new yards in Memphis and the Southern Railway Company would exchange its present yards for foot. The Park Commission carried out its part of the agreement, and so informed the Southern Railway Company, but to the surprise of the Park Commission the road demanded, in addition to the exchange of property, \$50,000 as the cost of moving. This included a bridge across Georgia street about 500 feet long, and, besides the closing by the city of Memphis of Webster and Clay streets. The Park Commission, after a long discussion, gave up hope of a compromise, and withdrew. The Southern Railway Company declined to put any price on its present yards.

Misses Lucille and Virginia Ballew, of Mayfield, Ky., are visiting the family of their aunt, Mrs. A. E. Austin, of this city.

Accepts Call Here. Acceptance of the call to the pastorate of the Southern Presbyterian church of this city has been received by the congregation from the Rev. Luther L. Cowan, of Fayette, W. Va. The new pastor will come here at once and will preach his first sermon Sunday, September 12. Mr. Cowan is said to be an able and eloquent divine and will receive a cordial welcome from the church which he comes to take the leadership of.

NEGROES' VICTIMS UNABLE TO APPEAR IN COURT. The cases of Gilbert Williams and George Simmons, colored, who were charged with malicious cutting and being an accessory to malicious cutting, were continued in the City Court yesterday morning until September 11, on account of the inability of the prosecuting witnesses to appear before the tribunal.

Williams and Simmons are the negroes who were accused of the shooting of Lee Hall, Victor Von Borries and Edward Prince at a fight at Fourth and Oak streets, two weeks ago this morning. All of the boys are still confined to the infirmaries, and it was stated by the attendants that the young men's wounds would not be healed sufficiently for several days yet to permit of the patients being removed.

EL ROCHI GIVES UP A MILLION AND TORTURE ENDS. Tangier, Morocco, Sept. 4.—El Roghi, a Moroccan, who was recently carried into a prison in an iron cage, is ill, and the Sultan has given orders that El Roghi be no longer exposed to the public gaze. It is understood that El Roghi will order his bankers to pay over to the Sultan the sum of \$1,200,000.

Store Closes
5:30 P. M.
Daily Until
September 13.

Great Sale of Hair Brushes At Just About Half Price.

We cleaned up the small lots and samples of a well-known German brush manufacturer at about half regular prices. The goods are the very finest made; all real bristles and solid backs; acknowledged the best and highest-finished merchandise. The Brushes are in the finest woods—fox, cocobola, black and turtle ebony and genuine satin woods. We have divided the purchase into four lots:

LOT NO. 1— 49c
VALUES 79c TO 98c.

LOT NO. 2— 79c
VALUES \$1.25 TO \$1.75.

LOT NO. 3— 98c
VALUES \$2.00 TO \$2.50.

LOT NO. 4— \$1.49
VALUES \$2.75 TO \$4.00.

As the quantity is limited we advise an early selection.

Colored Dress Goods—Fall Display.

New arrivals daily augment the excellent display of the new colored fabrics of foreign and domestic makes. The enthusiastic energy manifested by our buyer resulted in an extraordinary selection of variety and new weaves.

The showing includes much of new interest; notably among the new colorings are Pervenche, Zenith, Olympian Blue, Framboise, Raisin, Bordeaux, Walnut, Coal Dust, etc. As items of interest for the coming week we mention two specials:

Herringbone Cheviot, 44 inches wide; strictly all-wool fabric; in all the new colorings; price, a yard..... 85c

Diagonals, 44 to 56 inches wide; in plain and two-tone effects. These Diagonals are destined to be one of the popular weaves for autumn wear. Prices range, per yard, from \$1.25 to..... \$3.50

New Black Dress Fabrics.

Our display of the new Black Dress Fabrics surpasses all past efforts in variety. Great credit must be given our buyer for the superior selection of novelties and new weaves purchased from foreign and domestic manufacturers. A cordial welcome awaits your inspection. As an incentive to early purchasing we offer an unusual value for the week.

HOUSEHOLD

The Autumn Styles in Dresses and Tailored Suits

are now being featured by us. We show a comprehensive line, embracing the most fashionable ideas in fall styles and in the most popular fabrics—English homespuns, tweeds, diagonals, mannish mixtures, serges, broadcloths, etc.

The New English Tweed Suits at \$25

Several striking models in perfectly Plain Tailored Suits of English tweeds, serges, broadcloths, etc.; coats in the main are perfectly plain tailored, from 42 to 48 inches long, and cut on semi and fitted lines; skirts in kilt, side and various plaited effects. Many other lines from \$15.00 to \$75.00.

The New Silk Jersey Movenage Silk Taffeta Dresses

Made in Movenage effects—bodies of silk jersey; perfectly plain tailored; foot of skirt in various plaited designs. The very same Dresses are being sold elsewhere at \$22.75 to \$27.50.

Many striking models at this price in the straight-front panel effects—both plain tailored and braid trimmed; all designed after the Movenage. Others in cloth fabrics from \$15 to \$75.

PLAZA FINISHED

New Albany Board Will Accept the Street.

PIANS COMPLETED FOR BIG STEEL PLANT IN CLARK.

NIGHT SCHOOL WILL BE CONDUCTED THIS YEAR.

MORE LEGGETT-TAYLOR CASE.

The Jefferson County Construction Company reported the completion of the plaza on Market street, between Pearl and State streets, New Albany, at the meeting of the Board of Public Works yesterday morning. The reports of Samuel T. Mann, the city engineer, and George B. Gardner, inspector, were favorable, and the street was accepted and the preliminary assessment roll will be prepared by the city engineer and presented to the board next Saturday morning.

The sidewalks on East Fourth street, between Main and Market, were ordered placed in repair by the board. The placing of arc lights at street intersections by the Monon Railway Company and near the tracks of the Baltimore and Ohio Southwest and the Pennsylvania railroads.

Plans for Big Steel Plant.

J. W. Miles, who has been in New Albany and Louisville the last week making arrangements for the beginning of work on the plant at Midway, near New Albany, for the manufacture of steel girders for street cars and other high-grade steel castings, returned yesterday to his home at Middletown, O. Work on the immense building will begin within sixty days. Mr. Miles stated before leaving yesterday, all the preliminary arrangements having been completed. The plant will be conveniently built on the interurban line of the Louisville and Southern Indiana Traction Company and near the tracks of the Baltimore and Ohio Southwest and the Pennsylvania railroads.

To Have Night School.

The Board of Trustees of New Albany has concluded to operate the night school which was so successfully managed by Prof. George W. Briscoe, principal of the Main-street school, last year. The school will be held in Carnegie Library Hall, which is well situated and convenient to the pupils attending. Last year was the first of existence since the school was inaugurated in the progress of the pupils that the trustees decided that it must be established again, when an increased attendance is expected. The opening meeting will be held next Tuesday night.

Now Try Habeas Corpus.

In the Floyd Circuit Court at New Albany yesterday, Mrs. Ada Leggett, wife of E. B. Leggett, of Decatur, Ill., by her attorneys, Ewing & Rose, instituted a habeas corpus proceeding against Charles M. Taylor and his wife, Martha L. Taylor, for the possession of her 13-year-old daughter, Emma Taylor, who has been living with Mr. and Mrs. Taylor for the last nine years.

The mother alleges that the child is illegally restrained by the Taylors, who have deprived her of her custody and possession, to which she claims the defendants have no natural right. Judge W. C. Ute made the order returnable next Saturday morning at 3 o'clock.

Taylor had Mrs. Leggett arrested last Tuesday on charges of assault and battery, and the jury failing to agree, another trial was had Friday, with the same result. After the dismissal of the jury Mrs. Leggett agreed to plead guilty to one of the charges, providing the other was dismissed, a fine of \$5, enabling Mrs. Leggett to return to her home at Decatur.

ITEMS OF INTEREST FROM NEW ALBANY.

Mrs. John Biel has been called to Selersburg by the illness of a relative.

Mrs. and Mrs. J. S. Jameson have returned from Colorado Springs and Denver, Col.

The bride will be accompanied by her father, Mr. J. C. Schluter, and the groom by his father, Mr. J. Raymond Clark. The ceremony will be performed by the Rev. J. C. Schluter.

The bride-to-be is one of the prettiest young women in Jeffersonville and has a sweet disposition.

The groom is a young man, a native of Louisville, but has lived in Jeffersonville since a young child. He is a well-to-do man, and is engaged in the hardware business. He is a native of Ohio Falls, Ky., and is a member of the Ohio Falls Hardware and Manufacturing Company.

Mr. and Mrs. John C. Schluter, of 614 East Maple street, Jeffersonville, yesterday authorized the announcement of the engagement of their daughter, Miss Ida May Schluter, to Mr. J. Raymond Clark, son of Mr. and Mrs. William T. Clark, 302 Woerner avenue, Ohio Falls, Ky.

The wedding will be held on Wednesday evening at 8 o'clock at the home of the bride's parents, Mr. and Mrs. J. C. Schluter, 614 East Maple street, Jeffersonville. The bride will be accompanied by her father, Mr. J. C. Schluter, and the groom by his father, Mr. J. Raymond Clark. The ceremony will be performed by the Rev. J. C. Schluter.

The bride-to-be is one of the prettiest young women in Jeffersonville and has a sweet disposition.

Price 98c to \$2. T. P. Taylor & Co. (Incorporated) PHARMACEUTISTS 216 Fourth Ave., Store No. 2, 458 Fourth Ave., Store No. 3, S. E. cor. 4th & Chestnut, Store No. 4.

TAYLOR-MADE CUT PRICES ON DRUGS "FAMOUS."

CLYDE FITCH DIES Succumbs To Appendicitis In France. AUTHOR OF MANY SUCCESSFUL DRAMAS. PLAYS NOTABLE CHIEFLY FOR WIT AND SATIRE. MASTER OF STAGECRAFT.

Chalons-sur-Marne, Sept. 4.—Clyde Fitch, the American playwright, died at 9:30 o'clock this evening, after a long illness, of appendicitis.

He had been in the hospital since 3 o'clock in the afternoon. The doctors and his friend, Eugene Gauthier, were present at the bedside.

Death was due to appendicitis, from an operation. Mr. Fitch was stricken with an acute attack while traveling from Germany, and upon his arrival here underwent an operation at the hands of Dr. Alquier. The patient rallied somewhat after the operation, and yesterday showed some signs of improvement.

He suffered a relapse last night, however, and although he was fully conscious during the early hours to-day the improvement in his condition was not maintained. After marked delirium he lapsed into unconsciousness about 3 o'clock in the afternoon, at which time the attendant physicians gave up hope of his recovery.

Native of New York. Clyde Fitch, easily the most prolific of the younger American dramatists, was born at Elmira, N. Y., in 1865, of English ancestors who settled in Connecticut early in the Seventeenth century and left descendants who have been prominent in the religious and political life of the country ever since.

After an early education under private instruction at home, he was fitted for college at Haverdine, N. H., and was graduated from Amherst in 1888.

Both in school and college he early evinced an interest in literature, and was an untiring amateur actor. Confronted on facing the world with the necessity of choosing a profession, he thought at first of further studies in the art school, but decided that literature was more truly his calling and began at once to write for the magazines and publishers. In 1889 came his first novel, "The Wave of Life," followed in the interval of subsequent activities by "Boys' Correspondence" and "Six Conversations" and "The Smart Set."

"Beau Brummel" His First Success. Co-temporaneous with his first novel, "Beau Brummel," a playlet, had a brief run at the Boston Theater, but nothing from his pen found any prominence on the boards until the production of "Beau Brummel" in 1896, by the late Richard Mansfield. The play jumped the line and was a great success, and won with the years a classic place in American repertoire.

Thereafter the plays came two and sometimes three to the year with unflagging regularity. Touched sometimes with a delicate pathos, they rarely sounded deeper notes, but for the most part were content to skin the surface of the comedy of manners with tact, observation, no lack of wit and successful craftsmanship. Among the best known of them are:

"Nathan Hale," "The Cowboy and the Lady," "Barbara Frietsche," "Scuppernon from the South," "The Climbers," "The Girl and the Judge," "The Last of the Dandies," "The Girl With the Green Eyes," "Her Own Way," "The Girl Who Has Everything," "The Girl Who Has Nothing," "The Girl Who Has a Little," "The Girl Who Has a Lot," "The Girl Who Has a Great Deal," "The Girl Who Has a Great Deal."

Still other plays of his are: "The Girl Who Has a Little," "The Girl Who Has a Lot," "The Girl Who Has a Great Deal," "The Girl Who Has a Great Deal."

His income from his dramas has been estimated at all the way from \$75,000 to \$150,000 a year. And for all his rapid production, he was the most careful worker.

"I think my plays for two years," he said, "though I may write them in five weeks, and before I give them over to the typewriter they have been gone over at least four times. An idea for a play comes to me usually from reflection upon some peculiarity of character I have observed."

Mr. Fitch was a great believer in the American drama.

"There is a great field in America for plays dealing with the history of the country," he said once. "Such plays in England are made social documents. There is no reason why we should not have them. To give value to such plays the manner and the costume of the people at the time described must be given with accuracy of detail."

COMMISSIONER M. C. RANKIN WAS MISREPRESENTED. M. C. Rankin, Commissioner of Agriculture, was misquoted in the Louisville Courier-Journal, Sept. 4. Many athletes of national prominence competed in the games of the Monticello-Sycamore branch, A. O. H., here to-day. Martin J. Sheridan broke the world's record for the discus throw with 141 feet 1 inch. The record was 140 feet 8 inches.

WITH PISTOL Mrs. Theodore Zabel Ends Her Life.

HAD BEEN AN INVALID FOR MANY YEARS. HUSBAND MANAGER OF PHOENIX HILL PARK. DEATH WAS INSTANTANEOUS.

Because of continued ill-health, Mrs. Margaret Isabel Zabel, wife of Theodore Zabel, manager of Phoenix Hill Park, committed suicide about 10:30 o'clock yesterday morning by shooting herself through the head at the family residence in the park.

When Mr. Zabel went home to his lunch he found his wife had gone to her room to lie down and had locked the doors to insure safety from any disturbance.

Mr. Zabel entered the room by way of a window and went upstairs and at the side of her bed found his wife lying in a pool of blood. Near her right hand lay a revolver of 22 caliber. Physicians were summoned and they say death was instantaneous. The bullet entered the head above the right ear and emerged over the left ear.

Since early life Mrs. Zabel had been afflicted with spinal meningitis and for weeks she hovered between life and death with this disease. She recovered rapidly, but during the past year had been under the care of a physician on account of nervous trouble. In an effort to get relief from her intense suffering Mrs. Zabel had taken a large quantity of a friend on the second floor of the hotel, where she had been living, and a change might do good. She returned home last Tuesday little improved.

Death a Great Shock. Mrs. Zabel had never intimated taking her life and her death came as a shock to relatives and friends. At 1 o'clock yesterday morning Mr. Zabel said he was awakened by his wife's intense suffering and she was unable to get to bed. However, she prepared breakfast for the family and Mr. Zabel and his son went to work. It is believed that Mrs. Zabel locked the outside door, went to her room and fired the fatal shot. No one heard a shot about this time, but paid no attention to it.

The coroner, Dr. Charles I. Groves, was called and after an investigation stated that it was a case of suicide.

Mrs. Zabel was 47 years of age and was born in Louisville, where she had lived all of her life. She was the daughter of George Herman, who was formerly in the whiskey business. Besides her husband, she is survived by her son, Theodore Zabel, Jr., and her mother, Mrs. George Herman.

Three brothers, Joseph A. Herman, George Herman and one sister, Mrs. Tillie R. Bridgeport, also survive. The funeral arrangements have not yet been completed.

2,728 Shares Involved. According to an official statement issued after the meeting, 2,728 shares of First National Bank stock were involved in the transaction.

Chased from the Kentucky Title Savings Bank by Edwin H. Ferguson, C. C. Bickel, Clint C. McClary and the heirs of the bank, who had with him stated how many shares were disposed of by each individual, since they pooled their holdings with the Plaiden Trust Company, making the total number of shares made.

The price paid for each share of stock, according to Embury L. Swearingen, was \$10 per share, plus \$25 for the name or good will of the bank, thus advancing the price up to \$35.

Acting on the suggestion of John W. Barr, Jr., and H. C. Rodes, who were appointed a committee some time ago to appraise the assets of the First National Bank, the original capital stock of the First National Bank of \$500,000 was reduced to \$200,000. This was done to sweep out what was considered a doubtful asset of questionable value. The capital was then increased to \$700,000, the additional \$500,000 being subscribed by the Kentucky Title Savings Bank for a cash consideration. The money had been previously posted with the Citizens' National Bank and the First National Bank. The capital next was reduced to \$500,000 and a surplus fund of \$200,000 created.

Starts With a Surplus. In creating the new surplus fund, wiping out every dollar of the bank's assets and wiping out the impairment of the capital stock, the First National Bank is placed on a sound and stable basis. The business of the bank under the new management perfectly clean and solvent.

First National Bank. CONTROL PASSES RUNS AMUCK.

Taken Over by Kentucky Title Savings Bank. Carries Dangerous Spring-back Knife.

Deal Involved 2,728 Shares of the Stock. Two Policemen and a Citizen Quell Him.

New Bank Has \$500,000 Capital; \$200,000 Surplus. Detective Slater Slightly Cut On the Arm.

BROWN REMAINS PRESIDENT. BREAK OUT UPTOWN, TOO.

When the stockholders of the First National Bank, at a continuation of a specially called meeting, voted to transfer the holdings of capitalists who sold out their stock about six weeks ago, and also cast their ballots in favor of reorganization, a clear and uncontested title to the control of the institution passed to the Kentucky Title Savings Bank. The meeting was held in the offices of the First National Bank, at Fifth and Main streets, and was attended by about twenty stockholders.

After the afternoon session in the big deal had been cleared up James B. Brown was elected by unanimous vote to continue as president of the First National Bank.

At the meeting also, the bank having changed hands, the board of directors under whose guidance the bank has existed for many years resigned and a new board, the same one that emerged from the city yesterday, and was elected in its place as follows:

W. J. Abram, Glimmer S. Adams, Lewis R. Atwood, Helm Bruce, Thomas W. Bullitt, W. Marshall Bullitt, J. E. Caldwell, Basil Doerhoefer, R. T. Durrett, E. S. Monahan, W. C. Priest, Jeff D. Stewart, G. H. Stockhoff, Embury L. Swearingen.

The names of those former members of the First National Bank who tendered their resignations follow: James Clarke, Jr., J. M. Andrew, J. V. Reed, C. E. Gheena.

Two Directors Absent. Two directors of the bank who were absent from the meeting yesterday are John A. Armstrong and D. S. Mills. Both of these men may tender their resignations later on. Mr. Armstrong was absent from the meeting because he was called away on account of illness.

It will be noted that a number of the directors of the Kentucky Title Savings Bank, the board that now controls the two institutions, are also members of the Union National Bank, Sixth and Main streets. This means that the one board of directors will practically control three of Louisville's leading financial institutions in the future.

William Marshall Bullitt, Embury L. Swearingen, Thomas W. Bullitt, Basil Doerhoefer and William J. Abram are members of the board controlling the two banks who are also on the Union National Bank directorate. They are in the majority on the Union National Bank, as such as three men, L. O. Cox, Henry Olmsted and William P. Otter, are the other members.

At this juncture Lieut. Wehrle, of the Second police district, jumped from a passing street car and ran up the steps to the meter, shouting to his brother officer: "Don't shoot him; let me use my stick."

Savage and Slater, who were struggling with Lawson, broke away and fled into the street, leaving Slater with the knife in his hand and a few feet distant. The three men closed in and renewed the hand-to-hand scuffle.

Finally Subdue Negro. Wehrle struck him repeatedly with the mace and at last succeeded in knocking the negro to the ground. The struggle continued for two or three minutes before the officers could drag him into the station house.

At the station house Slater was taken to the station house and Slater was taken to the station house and Slater was taken to the station house.

SUNDAY, SEPTEMBER 5, 1909

BUILDERS' EXCHANGE TO SPREAD THEMSELVES.

Real Ball Game, By Real Players On a Real Diamond, One of Features At Their Picnic.

The largest gathering of builders in the history of the business in Louisville will assemble to-morrow morning at 9 o'clock at Hike's Point for the twenty-second annual convention of the Builders' Exchange.

At least 500 builders and their friends are expected to get some time between 9 o'clock in the morning and 6 in the afternoon, which is the time limit of the big outing.

The entertainment committee has worked hard for the success of the day's affair. It consists of Arvid Norr, chairman; E. G. Hendrick, Edward Wagner, Joseph Ingram and Gus Albrecht, Jr.

The big feature of the day will be a real ball game on a regulation baseball diamond between two teams that have practiced faithfully for the event. They are the contractors' team, Fred Bicker, captain, and the General Contractors and Material Dealers' team, J. C. Zulauf, captain. The City Buyer and an ex-president of the Exchange, will umpire the game. Col. Hanger has promised to send out Capt. Wickham with a squad of police for Mr. Yost's protection.

The ball game will start at 10 o'clock in the morning. At 11 o'clock a scrub game will be arranged for those who want to play and who are not on the regular teams. In the afternoon also there will be some track and field contests, such as peanut and shoe races, a marshmallow contest and so forth.

At 1 o'clock what will appear to many as the biggest feature of the day will take place. This is an outdoor fried chicken dinner with the fried chicken, when, at the eighth session, the newly-elected officers will be installed, when the newly-elected executive committee will select a chairman and when after a brief social session, the nine day adjournment will be voted on. In between the business sessions and committee meetings scheduled for each day the delegates will partake of the kind of hospitality that made Kentucky famous.

Mayor and His Welcome.

While the first business session is scheduled to begin at 9:30 o'clock Tuesday morning at the Seabach, where all the business sessions will be held in the auditorium on the roof, the formal opening of the convention will be celebrated to-morrow night at the Seabach. At 8 o'clock when the great throng of pharmacists will be called to order by National President William S. Paine, Jr., of Atlanta, Ga., an excellent musical program will be arranged by the local committee for the occasion. Mayor James P. Griffin, on the behalf of the Louisville Retail Druggists' Association, will welcome the delegates. Their addresses will be responded to by President Elkin on behalf of the national organization.

Many Women Present.

When the formal opening exercises begin hundreds of women will be present, representing organizations from all over the country, not all of them at the Louisville Retail Druggists' Association. Their vocations, however, have a bearing upon the drug trade everywhere, and they will be made welcome in Louisville as invited guests of the officers and executive committee. They will come as envoys from the American Pharmaceutical Association, the National Wholesale Druggists' Association, the Proprietary Association of America, the United States Pharmacopoeia, the United States Dispensary Association, the National Association of Boards of Pharmacy. At the formal opening exercises also a number of secretaries will be appointed.

Aside from the election of officers at the seventh session Thursday afternoon, the most important business to be transacted will be reached Wednesday afternoon when a roll call of all the States will be called for the purpose of outlining plans and policies for the national organization for the year. Since the last annual convention several new movements have been started by the druggists, chief among which is a plan to form an organization of sub-postal clerks with a view to securing a better wage from the United States Government. It would be at all surprising if the druggists succeed at this meeting in perfecting this organization, for advance reports from every town and sends delegates say that the enthusiasm over the movement is unbounded.

Reception At Galt House.

The big entertainment features for the event will take the form of a reception to the president at the Galt House to-morrow night at 9 o'clock. At 10 o'clock, also at the Galt House following the president's reception, a grand ball for the delegates and visitors will be given under the auspices of the local association. According to President Jones hundreds of acceptances have been received for the event from the delegates who have been invited to attend and the crowd, therefore, will be a large one.

On Special Train.

A delegation to the convention that deserves a special word of two will arrive from Chicago at 5:30 o'clock. It will be a special train carrying 400 delegates to the convention from towns as far west as the State of Minnesota. This train will stop at French Lick Springs to-morrow morning to lunch with Thomas Taggart, president of the national association, and will continue on to Louisville after the noon hour.

DRUGGISTS WILL GATHER IN LOUISVILLE THIS WEEK.

Druggists Will Gather In Louisville This Week.

RETAILERS TO BE LIONS OF THE PERIOD.

ALL OTHER BRANCHES WILL BE REPRESENTED.

PROGRAMME OF MEETINGS.

A representative gathering of the men who trade in the life that flesh is heir to will be in Louisville by noon to-morrow from every section of the United States attending the annual convention of the National Association of Retail Druggists, the first business session of which is scheduled to convene here Tuesday. They will come to Louisville equipped with mortars and pestles and pill trays and glass bottles of every description filled with sparkling liquids of every color.

That the meeting will be one of the most enthusiastic held in Louisville this year, and some notable gatherings have put this big town on the map during the past ten months, for the delegates are boosters every one, and many come to Louisville in number to advertise as well as to dispose of the annual routine of the convention. It will be the first time in the history of the druggists' national organization that the members will be seen in Louisville as delegates to the convention, and partly for this reason a special effort will be made by the local committee to extend the visitors a welcome that will live in their memories for years to come.

Here Four Days.

According to the official programme for the meeting, the delegates will be concerned with the affairs of their organization from Monday to Friday, when, at the eighth session, the newly-elected officers will be installed, when the newly-elected executive committee will select a chairman and when after a brief social session, the nine day adjournment will be voted on. In between the business sessions and committee meetings scheduled for each day the delegates will partake of the kind of hospitality that made Kentucky famous.

Mayor and His Welcome.

While the first business session is scheduled to begin at 9:30 o'clock Tuesday morning at the Seabach, where all the business sessions will be held in the auditorium on the roof, the formal opening of the convention will be celebrated to-morrow night at the Seabach. At 8 o'clock when the great throng of pharmacists will be called to order by National President William S. Paine, Jr., of Atlanta, Ga., an excellent musical program will be arranged by the local committee for the occasion. Mayor James P. Griffin, on the behalf of the Louisville Retail Druggists' Association, will welcome the delegates. Their addresses will be responded to by President Elkin on behalf of the national organization.

Many Women Present.

When the formal opening exercises begin hundreds of women will be present, representing organizations from all over the country, not all of them at the Louisville Retail Druggists' Association. Their vocations, however, have a bearing upon the drug trade everywhere, and they will be made welcome in Louisville as invited guests of the officers and executive committee. They will come as envoys from the American Pharmaceutical Association, the National Wholesale Druggists' Association, the Proprietary Association of America, the United States Pharmacopoeia, the United States Dispensary Association, the National Association of Boards of Pharmacy. At the formal opening exercises also a number of secretaries will be appointed.

Aside from the election of officers at the seventh session Thursday afternoon, the most important business to be transacted will be reached Wednesday afternoon when a roll call of all the States will be called for the purpose of outlining plans and policies for the national organization for the year. Since the last annual convention several new movements have been started by the druggists, chief among which is a plan to form an organization of sub-postal clerks with a view to securing a better wage from the United States Government. It would be at all surprising if the druggists succeed at this meeting in perfecting this organization, for advance reports from every town and sends delegates say that the enthusiasm over the movement is unbounded.

PASSION PLAY

To Be Presented This Fall

In California.

ADOLPHE RETTE ENTERS BENE-

DICTINE MONASTERY.

POLISH CATHOLIC FEDERATION

IN MISSOURI.

THE MACDONOUGH MONUMENT.

(Contributed by the International Catholic

Truth Society.)

New York, Sept. 4, 1909.—The Fran-

ciscan Fathers of St. Boniface's monas-

tary, Golden Gate avenue, in San

Francisco, Cal., are preparing to put on

the boards, this fall, the sacred drama

of the Passion Play. Much time and

labor are being expended on rehearsals

and all needed preparations; and the in-

dication now are that the play will

draw crowds, not only from California,

but from other States as well. The fol-

lowing announcement describes the mo-

tion of the good monks who are prepa-

ing this play:

"The Passion Play is regarded as a

missionary play to teach the love and

sufferings of Christ, to reveal to un-

believers the beauties of the Chris-

tian faith, and to win back to God the

warm hearts who, perhaps, have for-

gotten the simple old Bible lessons of

childhood, but, when seeing those stories

visualized, will soften their hearts

again, let the tears of repentance flow,

and rise up with the desire to be once

more 'as little children.'

Prof. Monaghan To Speak.

Prof. James C. Monaghan, of New

York, will deliver a series of lectures at

the Western Catholic Summer School,

Oconomowoc Lake, Wis., at Okauke,

Wis. A prominent bishop of the Mid-

dle West, as well as two Catholic lay-

men, will also be heard there before

September 10.

Spring Bank is a beautiful piece of

land, situated on Oconomowoc Lake.

It is easy to understand, therefore,

why it was purchased last June as a

permanent home for the Western Catho-

lic Summer School. The tract includes

sixty-five acres, and the directors are

contemplating the building of a new

place there secured. The property was

purchased too late to arrange for a

regular course of lectures for this ses-

son, but next year it is expected that

the new school will be in full swing.

Archbishop McQuinn, who has in-

duced the enterprise, personally sub-

scribing \$1,000. Bishop Muldoon, of

Rockford, Ill., subscribed another thou-

sand dollars, and other prominent busi-

ness men of Wisconsin and elsewhere,

who will make a success of the financial

and of the enterprise. Even this ses-

son, without a regular programme, the

place has proved most popular, and has

had many visitors, and enjoy its natural

beauty and attractions.

The MacDonough Monument.

The recent dedication of the MacDon-

ough monument, erected by act of Con-

gress in memory of the heroes killed in

the fight under Commodore MacDon-

ough's command, who fell at the battle

here met the British fleet on Lake

Champlain, has naturally attracted

much attention and interest. It was

MacDonough's naval triumph that de-

fied the Lake Champlain battle be-

long to the United States.

Soldiers of the Fifth United States

Infantry, under command of Col. C. D.

Cowles, fired the salute to the new

monument, and gave a beautiful military

setting to the patriotic celebration in

commemoration of the valiant deeds of

the heroes of the famous battle fought in

defense of republican institutions.

The singing of the patriotic songs by

the children, patriotic speeches and the

reading of the catchwords, "The

Battle of Lake Champlain," by John

Jerome Rooney, formed the principal

commemorative features.

Adolph Rette a Benedictine.

Adolph Rette, the noted French

Radical and Socialist, who recently

made a pilgrimage to Lourdes and was

converted, writes to a friend:

"I have just made a retreat here

(a Benedictine monastery) and the

Father Abbot has decided that my vo-

cation is genuine. I enter the novitiate

to-morrow, and am profoundly happy

in consequence."

Poles Have Federation in Missouri.

The Catholic Poles are forming a fed-

eration in Missouri. As soon as it is

well established in that State they pro-

pose to extend it to other States in

the Union. Eventually they hope to

include within its ranks all the Polish

Catholic societies in this country.

A charter of incorporation has been

secured for a college for the Polish Cath-

olics by the St. John Kanty College

Association of the city of Erie, Pa.

The new college, which will be built at

East Mill Creek, will be conducted by

the Vincentians Fathers.

On September 5, 6 and 7 the first

annual convention of the Polish Catho-

lics of Canada will be held at Winni-

peg.

Sir Percy Grouard, a French Cana-

dian, has been appointed Governor

of the Province of Quebec.

FAIR HOP

Blue Ribbon Captured by Mrs. Loughbrough.

BEAUTIFUL WEDDING OF MISS TAYLOR AND MR. HAY.

MARRIAGE OF MISS NOOE AND MR. WALKER.

HOUSEPARTY COMES TO END.

[Correspondence of the Courier-Journal.]

Frankfort, Ky., Sept. 4.—Thursday night at the Capital Hotel there was gathered the beauty and the chivalry of the grand old Commonwealth.

The dining-room of the Capital Hotel was turned into a ballroom and the decorations of flags and bunting and the fresh, beautiful gowns of the women made the scene one of artistic triumph.

This dance was of the programme order—almost forgotten how to dance the scottish, haven't you? Well, this "fair hop" will be long remembered in the mind of the Kentuckians present for the pleasure it gave them.

Mr. Percy Hoge and Mrs. Loughbrough, of Little Rock, captured the blue ribbon in the beauty contest with roses and asparagus plumosa. Mrs. Doye Hazlerig captured second prize in a rig decorated with asparagus plumosa and red roses and red tulle. Several ladies were in Mrs. Hazlerig's turnout dressed in white.

Taylor-Hay.

"Thistle," the beautiful home of Col. E. H. Taylor, Jr., was converted into the House Beautiful on Wednesday evening for the marriage of Miss Mary Belle Taylor and Mr. C. W. Hay.

Miss Taylor is the daughter of Mr. J. Switzer Taylor and the granddaughter of Col. Taylor of this city.

The parlors and the hall and ballroom were in Southern smilax and white and pink anters. The mantles were covered with the smilax and adorned with the asters. Over the large mirrored top was a bow of white tulle tied at the top of the green vines.

The bride party came down the front stairs and were met at the bottom by the best man and the groomsmen. This was strictly a "family affair" and from the gallant Colonel to the "little girl" in the family they all were represented.

Misses Elizabeth Taylor and Agnes Saffell were the ribbon girls. Then came Master James Saffell bearing the ring on a white satin cushion and following these were Miss Frances Taylor carrying a basket of pink roses. Then the bridesmaid, Miss Frances Saffell, dressed like her predecessor in white muslin and carrying a French bouquet of pink roses tied with pink tulle. She entered with Mr. Edmund Taylor.

Then Miss Lella Hay, sister of the groom, similarly gowned, who entered with Col. Taylor. Then the matron of honor, Mrs. Durand Whipple, and then the bride, looking unspeakably lovely in a regal-looking wedding gown of what a little girl in the room called "star dust." The gown was tulle sprinkled with silver. The slippers were of white satin woven with silver threads. She wore the traditional tulle veil, held with lilies of the valley and carried a shower bouquet of the same beautiful flowers.

She was met at the foot of the stairs by her father, Mr. J. Switzer Taylor, and was joined in the room by the groom, with his best man, Mr. Paul Laffoon, of Cincinnati. The Rev. Alexander Hensley, of Versailles, read the beautiful Episcopal ceremony.

The bride's going-away gown was of blue with shoes and hat to correspond. Their destination is unknown and upon

NEW FACES TO BE SEEN IN MALE HIGH SCHOOL FACULTY

Seventeen Educational Institutions Represented by the Teaching Force of the School.

The faculty of the Male High School will have more new faces than usual this year. Dr. H. A. Maxwell, head of the German department, will have as a new assistant W. F. Colton, a graduate of Yale. R. A. Higgins will be assistant in English and Latin, taking the place of H. H. Palmer, who resigned to go to the University of Chicago to study sociology. Prof. Higgins has been instructor in English in the Wilcox High School of Terre Haute. He comes with unusual recommendations from President C. L. Mees, of Rose Polytechnic; Prof. C. W. Wain, principal of the Terre Haute High School, and from his former

Prof. Small taught last year in the Saginaw, Mich., High School, where he proved unusually successful. The teaching force of the Male High School graduated from seventeen different institutions, representing the leading universities of the United States and Germany. Yale is represented by two members, as are also Cornell and the University of Michigan. Indiana University has members, while the following have one each: Heidelberg (Germany), Rose Polytechnic, University of Rochester, Harvard University, Princeton University, University of Iowa, Columbia University, University of Louisville, Illinois University, Michigan Agricultural College, Rhode Island School of Design and the old Kentucky Military Institute.

The following is the complete roll of the Male High School faculty for 1909-10, and the subjects taught by each and the institutions where they graduated:

R. P. Halleck, M. A. (Yale), principal; psychology, logic and political economy. H. A. Maxwell, Ph. D. (Heidelberg), German. H. D. Cannon, Ph. D. (Cornell), Latin. S. B. Tinsley, A. B. S. (Rose Polytechnic), mathematics. H. R. Gers, A. B. (Indiana University), physics. J. B. Carpenter, A. B. (University of Michigan), Greek. O. E. Bell, A. B. (Indiana University), LL. B. (University of Louisville), English. J. B. Quafe, A. B., M. D., M. A. (Iowa College), chemistry. H. A. Smith, A. B. (Rochester), French. R. H. Swinney, M. A. (Kentucky Military Academy), assistant in mathematics. E. Hill, M. A. (University of Louisville), A. B. (Auburn College), general assistant. H. R. Moore, M. A. (Indiana University), Ph. D. (Cornell), assistant in English. E. B. Benger, B. Sc. (Iowa College), assistant in physics and mathematics. Willoughby F. Colton, A. B. (Yale), assistant in German and Latin. William H. Camp, B. Sc. (Princeton), assistant in mathematics. R. A. Higgins, A. B. (Indiana University), Ph. D. (Cornell), assistant in English. J. W. Sanders, M. A. (Columbia University), assistant in Latin. E. E. Brewster, B. Sc. (Harvard), assistant in English. L. E. Minor, A. B. (University of Michigan), assistant in English and Latin. A. O. Goodman, A. B., junior assistant. J. B. Thayer, (Iowa College), Rhode Island School of Design, manual training. W. E. Currier (special work in mechanical engineering), Harvard, drawing. Walter H. Small, C. E. (Michigan Agricultural College), assistant in manual training. W. F. Borton, B. Sc. (Illinois University), assistant in manual training.

R. A. HIGGINS.

mer instructor, Prof. Martin W. Sampson, of Cornell University. Prof. Wain, from Iowa College, which calls him "one of the best physics teachers west of the Mississippi."

There will be a new assistant in physics and mathematics, E. B. Benger, from Iowa College, which calls him "one of the best physics teachers west of the Mississippi."

In the manual training department Walter H. Small takes the place of J. W. Eck, who resigned to continue his studies at the University of Chicago.

their return they will go to housekeeping on the South Side.

Mr. Hay is general freight agent at the F. and C. depot, and is an up-to-date business man. Little is known of him as he has friends galore, who will wish him and his bride smooth sailing on the matrimonial seas.

A room was required to hold the numerous wedding presents that amply attested the esteem of their friends over the union.

A delicious supper was served the guests after the departure of the bride and groom. The less were in the guise of "Bachelors" and the tiny cakes had the monogram "T. H." in gold on each piece.

For Visiting Guests.

Mrs. John W. Milan entertained very informally on Tuesday evening for Mrs. Loughbrough, of Little Rock, Ark., the guest of her sister, Mrs. French Hoge, and Mrs. Gunby, of Knoxville, Tenn., the guest of her sister, Mrs. O. T. Poyntz.

The house was decorated with cut flowers and plants.

After the guests an ice course was served to the following guests: Mrs. Loughbrough, Mrs. Gunby, Mrs. French Hoge, Mrs. O. T. Poyntz, Mrs. Will

Grayot, Mrs. Arch Dunlap and Mrs. A. F. Respass.

Noce-Walker.

The wedding of Miss Louise Noce, of Louisville, Tenn., was quietly solemnized at the residence of the bride's aunt, Mrs. Harriett Crittenden, on Vapping street, the Rev. Lewis R. Burton, of Lexington, officiating.

The ceremony of the Episcopal church was unusually sweet and impressive as this handsome couple were man and wife.

Miss Noce made a real-looking bride in her wedding gown of white silk embellished in real lace and carrying a French bouquet of white and pink roses.

The parlors of the Crittenden home were artistically decorated with quantities of bride roses and asparagus plumosa.

After serving a luncheon to the immediate relatives and friends, Mr. and Mrs. Walker left on the P. and C. for Memphis, the home of the groom.

Miss Noce was born in Memphis, but after the death of her father, Judge John A. Noce, the family moved to Louisville.

Enjoyable Houseparty Ends.

Misses Hattie and Emmie Scott saw the last of their jolly houseparty young on Monday. For a week these young people have been wined and dined and attended various functions, given in their honor. When they were not going in automobiles they were out cross-country riding and taking advantage of their day they were given a beautiful dinner party by the Misses Scott, and covers were laid for twenty people.

The dining-room and table were decorated with pink asters and smilax. In the center of the table a low mound of the asters was wreathed with smilax and around this were the side cardinals, storks holding pink tapers. The mints and bon bon carried out the rosy scheme of things. After the dinner the entire party took in all the moving picture and vaudeville performance in the city.

In Sunday, the last day of the stay the houseparty with a few invited guests spent the day in rest at "Scott Camp," a few miles from this city, where Col. Scott maintains a fine fishing lodge.

Those composing the party were: Misses Ellen Withers, and J. A. Barnett, of Versailles; Marion Cogar, of Danville; Nellie Rankin, of Louisville; Elizabeth McCabe, of Midway; Hattie and Emmie Scott, of Louisville; Messrs. W. J. Price, of Danville; Monette Wiegand, of Versailles; Quinn Cogar, of Midway; Robert Noce and Dr. E. W. Morgan, of Louisville; Henry Milway, of Lexington; Misses Edith Parrish, of Lexington; Patricia O'Rear and her sisters, of St. Louis.

Informal Musicals.

Mrs. Hiran Berry entertained with a informal musical in her rooms at the Capital Hotel last week in honor of her niece, Miss Adelaide Poyntz, of Louisville.

The decorations were in pink and white roses and asparagus plumosa for the occasion. Capt. and Mrs. W. F. Danbridge assisted Mrs. Berry in carrying for her guests. They were as follows: Misses Adelaide Poyntz, of Louisville; Miss Clara Cunningham, of Louisville; Miss Edith Parrish, of Lexington; Poyntz and Miss Furber; Messrs. George Smith, Pruet, Graham, Ben Hughes, Al Lillard, Gavin McRae and Charles Clayton.

Country Club Tea.

Miss Jennie Parrish Bailey and Miss Sara Lockett served tea last Saturday afternoon at the Country Club.

The table was tempting and beautiful with decorations of pink and white roses. The following cut-throat guests were present: Miss Myra B. Evelyn, of Henderson; Miss Alleen B. Cain, of Louisville; Miss Margaret F. Poyntz, of Midway; Mr. Will Hall Hawkins, of Midway; Mr. H. P. Mason, Jr., of Louisville; Miss Edith Parrish, of Lexington; Capt. Ed Walker, of Henderson, and Mr. Brent Green.

Mrs. Gray McLean, who has been spending two weeks in Louisville on her sister, Mrs. Dorsey, has returned home. She will have with her on the P. and C. her mother, Mrs. H. H. Stanton; Mrs. Charles Clark, of St. Louis, formerly Miss Florence Stanton; Misses Martha and Charlotte Willis, of Shelbyville, and Miss Dorsey, of Creston Hill.

Mrs. M. B. R. Day, who has been touring Egypt and other places in Europe for several months, has returned home.

Mr. and Mrs. Cralke Jackson and their daughter, Helen Page, returned to their home in Louisville, Tenn. Mr. and Mrs. Jackson are former Frankfort people.

Mr. and Mrs. A. C. VanMeeter and Mrs. Paul Burlingame, of Louisville, were here last week to attend the Taylor-Hay wedding at "Thistleton." ELLA HUTCHISON ELLWANGER.

OLD SORES KEPT OPEN BY BAD BLOOD

Whenever a sore refuses to heal it is because of bad blood. The circulation has become contaminated with impure, polluted matter which has not only diseased the blood, but also destroyed its plasmonic or natural healing properties. The sore or ulcer therefore remains open, while the morbid discharge from the circulation into it, causes the place to inflame and fester.

Impurities in the blood which keep old sores open, come from different causes. A long spell of debilitating sickness, which breeds disease germs in the system, is a common source. These morbid impurities get into the circulation, and the blood becomes a polluted, infectious fluid, which instead of nourishing the fibres and tissues of the flesh, irritates and ulcerates them by continually discharging its impurities into the place. Another cause for bad blood is the retention in the system of the refuse and waste matters of the body. Those members of the body whose duty it is to carry off the useless accumulations become dull and sluggish in their action and leave their work imperfectly done, and this fermenting matter is absorbed into the circulation. The weakening or polluting of this vital fluid may also come as the results of some constitutional disease, especially where mineral medicines are used for a protracted time, while persons who are born with any hereditary blood taint are very apt to be afflicted with old sores.

Local or external applications cannot cure an old sore, because they do not reach the blood. Such treatment may reduce the inflammation, lessen the pain and discharge, and tend to keep the place clean, but can do no real good toward effecting a permanent cure. The sore cannot possibly heal until the impurities have been removed from the circulation and its natural, healing constituents restored.

Since an impure condition of the blood is responsible for old sores, a medicine that can purify the blood is the only hope of a successful cure; and it should be a medicine that not only cleanses the circulation, but one that at the same time restores the blood to its normal, rich, nutritive condition. S. S. S. is just such a remedy. It is made entirely of healing, cleansing, blood-nourishing, roots, herbs and barks. S. S. S. has long been recognized as the greatest of all blood purifiers, possessing the properties that are most necessary in all impure or morbid conditions of the circulation. When S. S. S. has purified the blood, old sores heal readily and surely because they are no longer fed and kept open by a continual discharge into them of disease-laden, irritating matter from the circulation. S. S. S. brings about a healthy condition of the flesh where the sore is located, and makes a lasting cure because it restores the healing properties of the blood. Book on Sores and Ulcers and any medical advice free to all who write.

THE GRAND RAPIDS FURNITURE CO. CLOSED OUT ITS ENTIRE STOCK TO HARTMAN'S - AND IT GOES ON SALE TOMORROW

Here's one of the most sensational bits of news for thrifty householders that has found its way into a Louisville newspaper in years—yes, in many years. And it's a brief story. The Grand Rapids Furniture Company found it necessary to close out their business and to convert their goods into cash in the quickest possible time. They wished to dispose of the stock in its entirety, and so it was perfectly natural that they should come to Hartman's, it being the one concern that is big enough to handle any size stock that might be offered them. We took this Grand Rapids furniture stock complete—every piece of furniture, every stove, every rug, every yard of carpet and every article contained in their big retail establishment. We secured the goods at practically our own figures. Now here's where it becomes interesting to you:

SALE BEGINS TO-MORROW MORNING!

Beginning to-morrow morning, this entire stock of the Grand Rapids Furniture Company, which came to us at positively the lowest figures at which we ever knew a furniture stock to be purchased, and we want to tell you right here that it's going to be the biggest sale of the kind that was ever held in this big Southern metropolis. We are going to get our money out of this stock in the quickest possible time. We are not going to stop at a cut of one-quarter or one-third in the price, but rather will slash them right in half—or even deeper—from beginning to end throughout the entire stock.

THE RED TAGS TELL THE STORY

This most sensational close-out sale is to be conducted at our big store-room, 426 West Market street, and every article will be marked with a big red tag, which will tell its own story—will tell the story of one man's loss and another man's gain—your gain. These red tags will bear prices that will make you open your eyes. If you don't admit that you never before in all your born days saw such bargains—such great big bargains—then we have missed our guess.

We are going to stir up this city as it was never stirred up before. We are going to give you a series of price sensations that will make this sale one long to be remembered. We say to you most positively that there has never been a sale held in this or any other city which for great big, heaped-up and running-over bargains would measure up to this one.

SELECT FURNISHINGS FOR A COMPLETE HOME

This event is of wonderful importance to every family needing a home outfit. We doubt if there was ever an equal opportunity in the history of Louisville to furnish up a home so completely and nicely at such a remarkably low sum of money. At the prices quoted on this Grand Rapids stock you can furnish an entire home at the usual cost of a few rooms. You can secure handsomer goods and more of them at many given prices than was ever before possible in any sale of home outfits ever held in the city of Louisville.

Most Remarkable Purchase Women's Ready-to-Wear

—Ever Brought To Louisville—

2,000 Fine Imported Linen, Madras and Lingerie Dresses

All Splendidly Tailored—One-Piece Princess Styles.

Values \$10.00, \$15.00, \$20.00 and \$25.00 Monday at \$2.95

What is counted as the most remarkable underpriced purchase of Women's Ready-to-Wear ever consummated by the management of this store was made possible the latter part of last month by the retirement of a well-known New York manufacturer of Women's High-grade Garments. He was greatly overstocked with the season's most popular-styled Ready-to-Wear, including 2,000 Fine Imported Linen, Madras, Cheviot and Lingerie Dresses, and to terminate his affairs in the manufacturing business quickly, he agreed to take an enormous loss on this great lot. They are made of the season's most fashionable materials and are splendidly man-tailored and trimmed.

Every One Will Make an Ideal Costume For Early Autumn Wear

and in many instances the material alone is worth two or three times the price of the suit.

A Ready-to-Wear Sale Without Precedent or Parallel.

Fine Imported Linen Dresses

Made One-Piece Princess Style.

These garments are all handsomely man-tailored and are made of fine imported linens in the following colors: Tans, violets, greens, natural and white. They are made Dutch neck and stock collar effect; braid, self-color and pipe trimmed.

These Garments Will
Not Be Exchanged
or Sent On Approval.

Dainty White and Colored Lingerie Dresses

Lace and Embroidery Trimmed.

This splendid lot of Lingerie Dresses are also made Princess one-piece style, and are trimmed with lace insertion, embroidery bretelles, tucks, etc.; all high neck and stock collar effects, in white and dainty light shades.

Madras and French Voile Dresses

Made Dutch Neck Styles.

These garments are made Princess style with the Dutch neck, and are in an excellent quality of imported madras in stripes and broken checks and plaids. The Cotton Voiles are in broken checks.

Anderson Scotch Gingham Dresses

Made One-Piece Princess Style.

The beautiful high colors in Anderson's Scotch Gingham only lend to the attractiveness of this special lot of Dresses. They are also made one-piece style, in Dutch and high stock collar effects, in all colors, in attractive stripes and plain effects; self-trimmed.

These Garments Will
Not Be Exchanged
or Sent On Approval.

THE PATTERSON-DAVENPORT SCHOOL FOR BOYS.

A BOY'S FUTURE depends most of all upon the training he gets between the ages of ten and eighteen. He has a RIGHT, therefore, to the most favorable influences and it is the parents' DUTY to find the best SCHOOL. A favorable is judged by its TEACHERS, its PUPILS and its RESULTS. THE TEACHERS in the PATTERSON-DAVENPORT SCHOOL are scholars of high reputation. They are not only learning their profession by experimenting on the students under their care. THE PUPILS of this school come from the representative families of Louisville. The students are carefully guarded from all bad influences, social, moral and physical. The results of this system of training are shown in the fact that for eight years the school has had HONOR MEN in the great universities of the East. The school is endorsed by the presidents of Harvard, Yale and Princeton. Write for catalogue, PATTERSON-DAVENPORT SCHOOL, 1620 Third Avenue, Louisville, Ky.

Miss Carrie Rice, of New York, was the guest of Mr. and Mrs. J. W. Wells.

POLITICAL OPINIONS

Vary as to the merits of the different candidates, but all who have investigated the question know that the best and most liberal life insurance policy issued by any company is

The Participating Income Bond Policy

which affords ideal protection in that it provides

First—A prompt payment of the amount of the policy in the event of your death.

Second—If totally and permanently disabled and your ability to earn a living for your family is destroyed, the company, without cost to you, will keep up your insurance or will pay the amount of the policy to you in ten equal annual installments.

Third—Should you live to be seventy (70) years old the amount of the policy will be paid you in cash, thus protecting you against poverty and want in old age.

The Commonwealth Life Insurance Co.

Home Office, Commonwealth Bldg., 312 W. Chestnut St., Louisville, Ky.

Is the only company issuing the Participating Income Bond Policy, which contains many attractive features other than those described above, and if you will address the secretary, stating age, a sample policy will be sent you.

DON'T DELAY—OR YOU MAY WAIT TOO LONG.

Alveolar Dentistry
Modern Methods of Dentistry.
Teeth Without Plates or Bridges.

NO TOOTH NEED BE EXTRACTED. NO INDIVIDUAL NEED BE WITHOUT TEETH. "WHAT IS ALVEOLAR DENTISTRY?" A question that has been asked by many. This method consists in replacing lost teeth without a plate or bridge, no crowning, banding or cutting off a single tooth or having into the gums for attachments, yet putting in teeth that are as immovable as a rock and are as perfect in size and color and shape as the original teeth. This method is such a distinct improvement over the old method that in a few days every dentist is turning up to see it. To the dental profession (Riggs' Disease) has long been a disease which caused them to throw up their hands and say, "There is no cure, but, like all other things, the cure has been discovered, and even though the disease is in the last stages and teeth almost falling out we can, by simple and painless operation, make every one firm. We will be pleased to give you names of people who have been cured, and who are so enthusiastic over our treatment that they are sending us patients daily. We are past masters in the art of Dental Science, and use every new method to make our work painless and permanent. Our offices are equipped with all modern appliances, and we are better able to handle your case than the private practitioner. We can give you testimonials of hundreds of Louisville's best people whom we made happy by solving their tooth problems where some of the most prominent dentists in the State failed. No colored people need apply, for our work is confined strictly to whites. We do not charge for examination or consultation, we invite it. Hours—8 a. m. to 6 p. m. Sunday—10 to 12.

TO INSTALL
Exhibits At the State Fair
Beginning To-morrow.

EVERYTHING READY FOR BIG SHOW NEXT WEEK.

MANY CONVENIENCES FOR PUBLIC ON THE GROUNDS.

BIG HORSE SHOW PLANNED.

The coming week will be a busy one with those connected with the Kentucky State Fair, and with only one week intervening before the gates are thrown open to the public on the seventh annual exhibition, much detail work will have to be completed. The grounds will be thrown open for the reception of exhibits to-morrow morning and the entire week will be devoted to the arranging of all exhibits for the fair. Each member of the State Board of Agriculture has one or more departments directly under his supervision, and they will all be on hand during the coming week to supervise the placing of exhibits, along with the exhibitors and superintendents of the various departments.

Those In Charge.

The following list contains the departments as they have been divided among the members of the State board and the name of the superintendent in each department, both of whom will be on the grounds during the week preceding the opening of the fair. Department A, horses, Guthrie M. Wilson, member in charge, R. H. Lillard, superintendent; Department B, mules and jack stock, Guthrie M. Wilson, superintendent.

from the city of Louisville alone to the fair. Heretofore this class of Louisville citizens, unable to attend the fair during the day, failed to attend at all, as the only thing that would attract them to the grounds was not on the night programme.

Fine Racing Feature.

The racing feature of the fair this year will also be on a much larger scale than heretofore and the speed programme arranged by the management will be the means of attracting some of the most noted trotters and pacers in the country, while most of the matinee horses in Louisville and Jefferson county, as well as from all sections of Central Kentucky, will be present to participate in the cup races for gentlemen drivers. The stake events to be contested for at the fair closed with big entry lists. These events are the Louisville Retail Merchants' Association Stake for 2:21 class pacers, the Louisville Brewers' Association Stake for 3-year-old trotters and the Kentucky Brokers' Association Stake for 2:20 class trotters. In addition to these events there will be one or more purse races each day, one cup race for gentlemen drivers and one running race daily. Over \$5,000 will be distributed among the winning owners during the week.

Conditions For Running Races.

The conditions of the running races to be held during the week of the State Fair were announced by J. W. Newman, the secretary, yesterday and the card for the week called for two 2-year-old races, two for 3-year-olds and upward, one for all ages and one for gentlemen riders only. William Shiley, one of the officials of the new Louisville Jockey Club and one of the best-posted men in racing affairs in the West, has been engaged by the State Fair management as official handicapper.

TROPHIES AND CUPS TO BE GIVEN AWAY AT STATE FAIR

member in charge, William Simmons, superintendent, Department C, beef cattle, M. A. Scovell, member in charge, W. R. Moorman, Jr., superintendent, Department D, dairy cattle, M. A. Scovell, member in charge, Edgar Vaughn, superintendent, Department E, swine, Caldwell Norton, member in charge, H. L. Igleheart, superintendent, Department F, sheep, and goats, H. M. Board, member in charge, W. B. Middleton, superintendent, Department G, poultry and pigeons, M. C. Rankin, member in charge, John H. Good, superintendent, Department H, cattle dogs, M. A. Scovell, member in charge, Z. T. McKay, superintendent, Department I, vegetables and melons, H. M. Board, member in charge, Charles Scholtz, superintendent, Department J, field seed and grain, William Addams, member in charge, H. C. Lovelace, Boston, Mass., superintendent, George D. Karsner, Lexington, assistant superintendent, Department K, tobacco, William Adams, member in charge, M. H. Froman, superintendent, Department L, horticulture, Fred R. Blackburn, member in charge, Henry A. Adams, superintendent, Department M, plants and flowers, M. C. Rankin, member in charge, W. E. Bibb, superintendent, Department N, women's work and table luxuries, G. N. McGrew, member in charge, Miss Evelyn Porter, superintendent, Department O, farm implements and machinery, G. N. McGrew, member in charge, G. P. Rogers, superintendent, Department P, forestry and minerals, Fred R. Blackburn, member in charge, Lucien Becker, superintendent, Department Q, students and farmer boys' judging contest, M. C. Rankin, member in charge, Prof. J. J. Hooper, superintendent, Department R, speed races, Guthrie M. Wilson, member in charge, H. L. Smyser, superintendent.

Rest Tents Provided.

With the vast improvements made in the State Fair grounds during the past few months many additional features will be added looking to the comfort of visitors, chief of which will be the rest tents to be provided by the management, and which will be located along the boulevard leading from the main entrance to the pavilion. All of this vast space will be used for this convenience and in addition to the tents to be maintained by the fair management all of the city papers of Louisville will also have similar tents along the same route, providing every comfort for fair patrons.

Over \$5,000 For Horse Show.

With the advantages to be found in Kentucky from the State's resources the exhibits at the State Fair this year will be on a much larger and grander scale than ever before, as the people of Kentucky are just beginning to realize the opportunities and advantages to be gained by placing these resources on exhibition at the State Fair. In agricultural pursuits and in the horse industry Kentucky pre-eminently leads her sister States and the horse show feature of the fair this year will far surpass any similar exhibition ever held in the South or West. The premium list for the horse show is an amount in excess of \$5,000, and with the special premiums in the way of cash and trophies practically every light harness and saddle horse of note in the country will be present to participate in the various events.

The night horse show will be perhaps the greatest feature of the fair this year. It will be held in the \$100,000 livestock pavilion, the most pretentious building of its kind in America. This feature of the fair was eliminated last year, due to the fact that it was impossible to complete the building in time and all of the show rings were held during the day, but with a perfect lighting system having been installed recently at an expense of \$5,000, most of the big rings will be held at night and the horse show will take rank with similar events held annually in New York, Chicago, St. Louis, Kansas City and other places. The night horse show feature of the fair will be the means of attracting thousands of the lovers of horse flesh

per and starter for the meeting. Many of the horses now in training at Churchill Downs and Douglas Springs have been entered in the various events for the week of the fair and splendid prizes are assured the winners of the fair. Following is the card for the week:

FIRST DAY—MONDAY, SEPT. 13.
Purse \$100; for all ages. Weights: 3-year-olds, 90 pounds; 4-year-olds, 105 pounds; 5-year-olds and upward, 115 pounds. Five furlongs.

SECOND DAY—TUESDAY, SEPT. 14.
Purse \$100; for 3-year-olds and upward. Weights: 3-year-olds, 90 pounds; 4-year-olds and upward, 115 pounds. One mile.

THIRD DAY—WEDNESDAY, SEPT. 15.
Purse \$100; for 2-year-olds. Weight 100 pounds. Five furlongs.

FOURTH DAY—THURSDAY, SEPT. 16.
Purse \$100; for 2-year-olds and upward. Weights: 2-year-olds, 110 pounds; 4-year-olds and upward, 115 pounds. Winners at 100 pounds.

FIFTH DAY—FRIDAY, SEPT. 17.
Purse \$100; for 2-year-olds. Weight 100 pounds. Winners at the meeting to carry 105 pounds extra. Six furlongs.

SIXTH DAY—SATURDAY, SEPT. 18.
Gentlemen's Cup race.
Purse \$100; for 3-year-olds and upward. Weights: 3-year-olds, 90 pounds; 4-year-olds and upward, 115 pounds. Candidates to be submitted to the secretary for approval Thursday, September 16.

Division of Purse—\$70 to the first, \$20 to the second and \$10 to the third horse.

Light Harness Judges.

The State Fair management also announced yesterday the names of the men who will judge in the light harness and saddle horse department during the week of the fair. All of the men selected are among the most competent judges in their line in the United States and are well known to most of the exhibitors in this department in the country. Following is the list of judges:
J. W. Garner, Port Charlotte, Ky., three-gaited saddle horses; J. V. Bowles, Bardonia, Ky., roadsters; E. S. Pemberton, Horse Cave, Ky., light harness horses; S. C. Carpenter, Millersburg, Ky., five-gaited saddle horses; Harry Lazarus, Bowling Green, Ky., mules and A. B. Holland, Columbia, Tenn., jack stock.

IN LOUISVILLE SOCIETY.

(Continued From Eighth Page.)

Thomas Smith, of Valdosta, Ga.; P. A. Hunt, Meadames Smith and Arthur Graves, of Lexington, Ky., returned from a visit to friends in Louisville.

Miss Lucy Taylor and brother, Mr. Reuben Taylor, of Lagrange, Mo., returned with Dr. R. B. Pryor and Mrs. Pryor.

Mrs. J. B. Clure was the guest last week of her parents, Mr. and Mrs. E. H. Hunt, of Jefferson county.

Misses Mary Belle Rudy, of St. Matthews, and Misses Haddock and Corbella and Ella Mae Lee are attending a houseparty given by Miss Virginia Whipple, of Lakeview.

Mrs. Rose Brumcock and Miss Bettie Hampton left last Tuesday to spend several weeks with relatives near Asheville, N. C.

Misses Cornelia and Ella Mae Lee entertained Tuesday evening in honor of their guest, Miss Rudy, of St. Matthews.

Miss Margie Belle Ryan entertained very informally with a small number of guests, Wednesday afternoon. Her guests were Misses Bertha Current, of Royal, Lucy Taylor, of Lagrange, Ada Lee and Ruth Ryan, and Messrs. Oscar Current, of Royal, Reuben Taylor, of Lagrange, Harry Pryor, of St. Matthews, Phil Ryan, of Waverly, and Dr. R. B. Pryor and Mrs. Pryor.

NEW ALBANY.

Mrs. Angie Clarke, of Muncie, Ind., is the guest of relatives in this city for a few days.

Miss Ella Jones has returned from a visit to friends in Louisville.

Long and Short Kimonos
ALSO DRESSING SACQUES.
Fine quality lawn; values \$1.50 to \$2.00. Monday 48c

THE GREAT "FLUTTER" OF ANTICIPATION

Concerning the NEW FALL FASHIONS, is answered in an authoritative manner by our vast showing of elegant attire for women and children. The season's newest and most advanced ideas—great arrays of the most charming garments, refreshingly exclusive and indisputably stunning. A DISTINCT ACHIEVEMENT ATTAINED IN DISPLAYS OF TAILOR-MADE SUITS.

Come Monday and See the Advanced Styles.

"Perfectly Charming" To Behold!

1,000 Stunning New Fall Suits

Just arrived—perfect beauties. Never before were our early fall showings so extensive as at present—so "chic and classy." This lot was bought for an early sale. In wide diagonal chevrons, serges, broadcloths, worsteds, homespun and chevrons. Prices range from

\$10, \$15, \$25, \$35 and Up.

We cannot help but express our sentiments. Actually demonstrated already with our advanced trade. You cannot afford to pass us. Ask your neighbors who bought here, and they will readily tell you of their satisfaction and character of our garments.

Charming Evening Capes.

Not excelled in the city. So stylish and aristocratic in appearance, that the cost is not excessive. Made of fine broadcloth. Colors: Tan, rose, red, reseda, Copenhagen, gray and black. Dashing military styles and jet button trimmed. Selling for

\$6.75, \$7.50, \$8.95 and \$10

For Summer Wear.

The next few days will witness bargains nowhere else obtained in the following goods. The prices wouldn't pay for the dress-makers' time—actually ridiculous prices for such goods.

Lingerie Dresses

AT ONE-THIRD THEIR REAL VALUE.

\$2.98, \$3.98 and \$4.98

You'd pay more for the material.

Wash Coat Suits

AT ONE-FOURTH THEIR VALUE.

\$1.98 and \$2.98

They'll wither under such quotations.

"FASHION'S LATEST FAD."
The New Silk Jersey. Dresses, blouses, of cloth, muslin, taffeta or satin. Prices ranging from \$8.95 to \$20.

"The Style Store"

STARR-SWARTZ & CO.
Exclusive Outfitters for Women and Children.

Children's Lace Coats

In Egyptian and Battenberg lace; beautiful designs. These Coats are worth up to \$12.00. Choice Monday... **\$3.95**

Short Silk Kimonos & Dressing Sacques

Value \$4.00

Monday, While They Last 98c

In washable silk, floral, figured and plain designs; neatly trimmed. Do Not Pass This Offer.

Hats For Early Wear

We are getting ready to surprise the entire community with a showing of Millinery unparalleled outside of New York.

NOBBY, STYLISH TAILORED HATS—Made of moire and bengaline silks and novelty fabrics; correct shapes and colors. Beautiful \$5.00 Hat, for . . . **\$3.95**

CHILDREN'S PATENT LEATHER HATS—For early school wear. Special for Monday. **95c**

HAND-SEWED WINGS—Won't blow apart. All colors. Price, per pair. **95c**

Advance Showing Of Children's, Juniors' and Small Women's Fall Suits.

Showing the two and three-piece styles in the latest creations. Sizes 6 to 17 years, at **\$5.98 to \$25.**

JEFFERSONVILLE

—Miss Rose Schiffer and Miss Mary Schiffer returned from a visit with relatives at Evansville.
—Miss Myrtle Beecham and Miss Edna Beecham, of Edinburgh, Ind., are the guests of relatives in this city.
—Miss Alice Barnes has returned to Deputy, Ind., after a visit in this city.
—Mr. and Mrs. Allen A. Swartz and Mrs. Lawrence Zimmer have returned from a stay at Chautauque, N. Y.
—Mrs. Howard Rous has returned to Indianapolis after a visit with Mr. and Mrs. James C. Rous.
—Miss Janet Stewart, who was the guest of Miss Mary Dubie, has returned to Cincinnati, her home.
—Mrs. John C. Yarrle, of Nashville, Tenn., is the guest of Mrs. Porter C. Buttrick.
—Mrs. O. O. West, Sr., left Wednesday for Washington, D. C., to make her home in that city.
—Mrs. P. W. Hardin opened the social season Wednesday afternoon by entertaining her whist club in a delightful manner.
—Mrs. Lily Armstrong has gone to Columbus, Ind., for a visit with her sister, Mrs. Charles Hopwood.
—Mrs. Conrad Eberle, Jr., and Mrs. Clara Brown have returned from a stay at Sweet Sulphur Springs, Ky.
—Miss Bertha Pollock, who was the guest of Mrs. O. P. Graham, left Tuesday for her home at Cincinnati.
—Mr. and Mrs. John S. Pernett have returned to their home at Gary, Ind.
—Dr. J. H. Balke and Mrs. Baldwin have arrived home from a stay of several weeks in Michigan.
—Miss Ann Heaton is home from spending the summer at the Keowater Academy camp, Mercer, Wis.
—Mrs. Joseph Pether has gone to Indianapolis for a visit with her son, Herman Pether.
—Mrs. A. B. Swartz has returned to Frankfort, Ind., after spending several weeks in this city with Mrs. Clyde Hamann, her sister-in-law.
—Mrs. Elizabeth Abbott has returned from Atlantic City and has gone to Madison for a visit with relatives.
—Mrs. James Birger and sister, Miss Maggie Polk, have arrived home from a visit with relatives at Indianapolis.
—Miss Phyllis Knobloch, Miss Alma Knobloch, Miss Cecelia Knobloch and Miss Ruth Hoffman have gone to Frederick, Md., for a visit with relatives.
—Miss Ada Rose has returned from

a stay of two weeks at Fern Greve, which place she selected for her vacation outing.
—Mr. and Mrs. Edward P. Kehoe have returned from a trip to Chicago and Benton Harbor, Mich.
—Mrs. Thomas Hunt has gone to Ripley county, Ind., for a visit with her brother, Joseph Shaddy.
—Mrs. Homer Harrow has returned from the northern part of the State, where she spent several weeks ago on a visit with relatives.
—Miss Mary Sticher was hostess for the Non-Cameleon Club on Tuesday evening and a large number of guests were present.
—Mrs. Robert Hulbert has gone to Columbus, O., to join her husband.
—Miss Rachel Lander has gone to Columbus, Ind., to visit with relatives.
—Miss Cordia Perkins, of Leavenworth, Ind., is the guest of Miss Merle Clark.
—Mrs. Marion Snooks, of Eminence, Ky., is the guest of her mother, Mrs. J. E. Thickett.
—Mrs. J. W. Hartney, of Chicago, is here for a visit with relatives.
—Mrs. Charles A. Benfer has returned from a visit of three weeks with her aunt, Mrs. Frances Hockett, at Cincinnati.

LEXINGTON.

Lexington, Ky., Sept. 4.
—Mr. and Mrs. Nathan Elliott left Wednesday for Woodford county to spend the month of September with Mrs. Elliott's parents, Mr. and Mrs. William Reynolds.
—Miss Columbia Whitney has returned from a two months' visit to Miss Lora Jones at Houghton, Mich.
—Mr. J. D. Richardson has returned from a visit to his son, Dr. W. H. Richardson, at Ferguson, Mo.
—Mr. J. W. Rodes has returned to a visit to his daughter, Mrs. Stahfeldt N. Arnold at North Bend, Ore.
—Mrs. J. W. Rodes has returned to Lexington for a trip to New York City.
—Dr. Woodfolk Barrow and Mrs. Barrow returned from a visit to New York City Wednesday for a visit to Dr. Barrow's father, Dr. David Barrow.
—Miss Abby has returned from a three weeks' visit to Anchorage.
—Mr. and Mrs. Desha Breckinridge entertained their household on Monday evening in honor of Miss Beulah Dinsberger and her guest, Miss Nan Richardson, of Omaha, Neb.
—Mr. and Mrs. George K. Graves entertained with a dinner at the Country Club Tuesday evening in honor of their guests, Dr. John William Cox and Mrs. Cox, of New York City.
—Mrs. J. W. McAdams entertained with an afternoon tea Wednesday in honor of the guests of her household, Miss Helen Laff, of Cincinnati, and Etha and Lucy, daughters of New Castle.
—The Rev. Leslie Combs and Mrs. Combs and son, Brownell Combs, of Lima, Peru, arrived here Wednesday, where they will be the guests of Mrs. Combs' father, Mr. David Swiger.
—Mrs. S. J. Roberts and Misses Margaret and Mary Maun Brown have arrived at home from a ten days' trip to the lakes.
—Mr. and Mrs. Wallace Seares left Thursday for a visit to Olympia Springs.

RESULTS JUSTIFY UNCLE SAM IN SEARCHING.

Two Hundred Seizures Made After Passengers' Baggage Is Examined and Passed.

New York, Sept. 4.—William J. Loeb, Collector of Customs, in an interview to-day justifies, on the grounds of "good results," the increased vigilance of the customs officers in holding in and searching prominent persons on the docks on their arrival from Europe.
"Two hundred seizures have been made in the last three weeks at the gates of the docks," said the collector. "That would appear to justify the vigilance of the customs men. These seizures were made after the baggage of incoming passengers had been examined and passed and the passengers were about to leave the docks."

Schoolgirls Compact May Lead To Royal Marriage

(Correspondence of the Courier-Journal.)

LONDON, Aug. 26.—When a Portuguese newspaper announced a few weeks ago that an engagement had been arranged between King Manuel of Portugal and Princess Alexandra of Fife, King Edward's granddaughter, and a few days later the story was officially denied in England, it was thought that the wish in Portugal was father to the thought and that there was nothing in the story. The fact is that while the announcement may be premature, two women are moving heaven and earth to bring this marriage about, and it is on the cards that they may overcome the objections to the marriage of a Princess of such Protestant traditions as King Edward's granddaughter and the King of a country so intensely devoted to the Roman Catholic faith as Portugal.

The women are the mothers of the two young people, the Queen Mother, Amelie of Portugal, and the Duchess of Fife, daughter of the King, and Princess Alexandra of Fife. These two ladies have been bosom friends since girlhood. Although separated from each other by the duties of the high positions they occupy, and seldom able to meet, they have maintained a weekly correspondence which has been going on for years. They have confided to each other their joys and sorrows, and it is safe to assume that the Princess Royal knows all about the infantile ailments and smart baby sayings of the present King of Portugal, while his mother is equally familiar with the court circles and other adventures of the Princess Alexandra.

Compact For Alliance.

I am told by a personage in close touch with both sides that years ago a compact was made that if it were possible the two houses should be allied by marriage. The desire of his mother has ever lost sight of that agreement. First it was the ill-fated Crown Prince of Portugal—who was murdered with his father on February 1, 1908—who was to marry Princess Alexandra, but when his younger brother became King the desire of his mother that her son should marry the daughter of her old friend was transferred to Manuel, and it was with this idea that she acted so sternly to break off the poor boy's love affair with the daughter of a noble Portuguese house. In this she was assisted by the Portuguese statesmen, who see that the position of the throne would be greatly strengthened by an alliance with the powerful European nation like England.

Have Never Seen Each Other.

Curiously enough, the young people have never even seen each other. Manuel is only 20 years old and until he succeeded to the throne was occupied with his studies, and in addition

to this, as the younger son, he was kept a great deal in the background. Since he became King he has been too much occupied in gathering together the reins of his troubled kingdom to think of the abroad even of his marriage. Alexandra is 18 years old and has just come out. She made her bow to society at a ball at Buckingham Palace a few weeks ago. She is a quiet, retiring girl with little will of her own, who much prefers the quiet uneventful life on her father's Scottish estates to the whirl of a court.

Now, however, things have settled down in Portugal and Manuel's advisers think that it is time he was taking a wife. There is no doubt that negotiations regarding the English alliance have begun, but the great obstacle to be overcome is the Princess's religion. Public opinion in England would prefer a sovereign who would practice the religion of his grandfather to the King and his father-in-law. It is to be expected that the marriage of a foreign throne. Moreover, Princess Alexandra comes within the terms of the royal marriage act, and cannot marry without the King's express consent and that of Parliament.

In the case of the marriage of Princess Ena of Battenberg to the King

of Spain, there was a great outcry about her conversion to the Roman Catholic faith. In this case, however, Princess Ena, although a niece of the King was in such a position that formal conversion was not necessary. I am told that she could be placed within the terms of the marriage act or not, as the King might see fit. The whole question turned on the nationality of her father, and it was decided, for convenience sake, to call him a German, and allow her to follow her own inclination. It would never do for the King, who, on his accession, had to take an oath that he was most obedient to his Roman Catholic subjects, to allow his granddaughter to become a member of that church.

Manuel's Father King's Friend.

On other grounds Edward is not averse to the match. The late King Carlos, Manuel's father, was the one European monarch for whom the English King had a sincere personal friendship, and the Marquis de Soveral, Manuel's ambassador in London, and his father's friend, is a man of the most intimate private in character. The social gos-

sips in England are predicting that there will be some very serious conferences at Windsor castle about the proposed marriage. It may be stated that there are no questions at issue between England and Portugal which would call for the presence in England of two such functionaries.

At any rate, Edward has invited Manuel to come over and have a chat about it, and Manuel has accepted the invitation and will be coming before many weeks—the exact date isn't set yet. The young people will then see each other, and it is hoped that before long they will be able to unite them. It is significant also that Manuel is bringing with him Senhor du Baccage, his Minister for Foreign Affairs, and his Prime Minister, Senhor Wenceslau de Lima. Statesmen of this kind are not, as a rule, accompany their Kings on visits that are merely private in character. The social gos-

sips in England are predicting that there will be some very serious conferences at Windsor castle about the proposed marriage. It may be stated that there are no questions at issue between England and Portugal which would call for the presence in England of two such functionaries.

Pope Might Grant Dispensation.

It has been suggested that the Portuguese statesmen might be prevailed on to adopt the view that the advantages of an alliance with the English royal family would outweigh any imagined disadvantage which might attend the introduction of a Protestant monarch to the throne of Portugal. This year he intended to have the Czar at Windsor, but at the last moment it was decided that the Czar's safety could not be guaranteed, so he was only allowed to land from his yacht at Cowes for an hour or two. Edward has entertained nearly everyone else at Windsor, and he was in despair when his daughter suggested that he should invite Manuel over. The King jumped at the chance of killing two birds with one stone and Manuel is coming. From a material, as well as a political point of view, the alliance would be an excellent one for Manuel. The Duke of Fife is a very rich man and no doubt would make a generous pro-

vision to enable his daughter to maintain the position she would be called to. Manuel is poor and a few months ago he decided to forego a part of the income from the State to which he is entitled until all the money illegally overdrawn by his father is repaid. In addition to the provision made for his daughter by the Duke of Fife the English people could be relied on to do something handsome for the granddaughter of their King.

No Chances Taken.

Of course, there are some other questions to be decided before the marriage could take place. One of these is the health of the princess. Apparently she is in the best of health, but the maintenance of the royal success depends on a queen, and kings take no chances in selecting their wives. As a rule royal marriages are not announced until the prospective bridegroom is satisfied from a report by his own court physicians that his prospective bride is fitted to become the mother of princes. The announcement of the King of Spain's engagement was

delayed for months because there was some doubt on this score. This fact never found its way into print before, but it is none the less a fact. If all the difficulties are overcome, however, Alexandra may expect to have as good a husband as a royal bride can well expect. Manuel is a quiet, studious young fellow. He is a hard worker, is inspired by a high sense of duty and no breath of scandal has ever been connected with his name. He is an accomplished artist, something of a poet, and he has an excellent literary style. His attitude toward his mother during the terrible times which followed his father's assassination has endeared him to his people, with whom Queen Amelie was very popular. Her extravagance was blamed for much of her husband's financial entanglement, and Manuel, while he stood by her nobly, was not so popular as she ever was. It was his mother who owes most of his popularity to her son.

Independent of Mother.

It was feared, too, that when young Manuel became King he would be dominated entirely by Queen Amelie, who possesses all the imperious temper of the Bourbons. It was soon evident, however, that he intended to be independent of his mother. A little incident a few days after he became King showed this. The court physician was missing when he was wanted, and Manuel, making inquiries, found that he was attending to his private practice. He had been in the habit of neglecting his duties as King during King Carlos's time. Manuel sent for him and informed him that he must devote his whole time to his duties as King. If he wished to continue in the appointment.

Does the Queen know of this? the astonished medical man asked. "It was quite enough that I know of it," it was Manuel's reply.

Does His Own Reading.

Another incident illustrates the serious view which he takes of his duty. It is his custom to get every paper published in Lisbon every day and to spend hours in reading them. He is very intelligent and takes a keen interest in the progress of the world. It was noticed recently that he looked pale and tired and his ministers asked him to delegate to one of them the task of reading the papers and reporting to him on their contents. "No," he replied, "as long as I am King I must read the papers myself. I am saying and thinking, and I can only learn that by reading the papers myself."

If the marriage with Princess Alexandra comes off it will probably put an end forever to any hope that an American prince will marry a Portuguese princess. It is in Portugal, Anita Stewart, of Chicago, is engaged to marry Prince Miguel of Braganza, who is a pretender to the Portuguese throne. Prince Miguel, it is true, renounced his claim to the throne, but pretenders' marriages are not always successful. With an English princess sitting beside Manuel on the throne it is not likely to arise. (Copyright, 1909, by Curtis Brown.)

HOW SOME AMATEUR PHOTOGRAPHERS SPOIL THEIR PICTURES

THE troubles of the man in the dark room are now at their height. It matters not whether he be an amateur, sufficiently versed in the mysteries of photography to develop the plates and films exposed by his immediate family, or is one of the professionals who "do the rest" for an army of shutter snappers.

He has his troubles at all seasons of the year, but it is during the warm months, while the mercury is flirting with the 90s, and it requires the patience of Job to maintain an even temper, that it seems as if man and nature combined to bestow his path with thorns, says a writer in the Providence Journal. There is many a task more pleasing during the hot weather than that of a photographer. He is in the closest, in company with the odor of formaldehyde, while those for whom the work is being done, and who will take to themselves all the credit, are basking in the moonlight on a breeze-swept shore. And after a man has resorted to every trick known to the expert in trying to get a few more pictures from a batch of three or four-second underexposed, light struck, carelessly handled plates or films, and is then blamed by the unsophisticated owner of the camera for every failure from a double exposure to blank negatives—well, it isn't a sample of the cussedness, of the baseness, of the baseness of the human animal, what is it?

At least such is the opinion of an expert in this city, who is frequently called upon by those who content themselves with merely pushing the button to work the plates and films into prize-winning pictures. The number of camera enthusiasts is constantly increasing. There were more this year than the year before, and there are more this year than ever.

Experts employed by the large manufacturers have worked out methods of making photography easy and simple and the tendency on the part of amateurs to-day is to shirk the toil and drudgery which was a part of the work a decade ago and without which the beginner will never be anything else. To-day the greater number of those who use the camera stubbornly balk at every part of the work that has not been simplified and insist upon someone else doing the hard part.

According to the manager of one of the Providence supply houses less than 40 per cent. of those who regularly purchase photographic material do the technical part of the work themselves. It is that few of them have any "NELLIE'S KISSES."

(Detroit Free Press.)
When Nellie wants another gown,
She kisses me;
When Nellie wants a dress for town,
She kisses me;
When she craves a bonnet new,
Or shoes to match her stockings blue,
A pair of gloves, a veil or two,
She kisses me.
When'er my Nellie wants a fan,
She kisses me;
When'er she wants a sash of tan,
She kisses me.
If she wants money for a coat
Or underwear, I always note
She throws her arms about my throat
And kisses me.

IT MAKES A DIFFERENCE.

(Boston Transcript.)
"What did you say last night when Jack asked you to marry him?"
"Blessings of us and down."

idea of the causes of their failures, take it for granted that the man who does the developing and printing knows as little as they do. He believes that his explanations of the causes of the worthless films are mere trade excuses, and he actually spoils their plates or films because of jealousy or carelessness.

A few years ago the popular size camera among the amateurs was the 6½ by 8½. That was before the introduction of small folding hand cameras. The present time regards the 4½ by 6½ as an ideal size, but the great majority of those who are buying cameras insist upon having an outfit that will fold into the smallest possible space, and produce negatives about the size of a postcard. These workers, or many of them, have no idea of how the film is treated in the darkroom, have only an imperfect knowledge of the fundamental principles of photography, and make mistakes over and over again. A short time ago a woman, rather past the meridian of life, brought a package to the studio of a professional photographer which, she said, contained a dozen exposed plates she wanted to have finished.

After spending some time in trying to have the expert reduce his price, which was several cents higher than that charged at the supply house, she explained that she would be willing to pay a little more if the professional would guarantee that the pictures would be good ones as she was not satisfied with the manner in which the plates had been developed by the man from whom she bought the supplies, and she rather suspected that the darkroom man had contracted the habit of intentionally spoiling the larger part of the plates, in order to boom trade.

Almost every child is aware that the coating on photographic plates and films is so sensitive to white light that the smallest ray that has not passed through a ruby or yellow glass will ruin the undeveloped plate. For this reason the manufacturers are very careful to wrap plates and films in black or red paper before packing them in boxes, and the photographer is careful to paint the interior of his workroom a dull black, not because he pretends to work in a smoky environment, but because the stray ray of white light which might enter the room is absorbed instead of being reflected until it strikes the plate.

The woman left the parcel after paying for the work in advance, and that evening the professional photographer took it, with several others, into the darkroom. The plates which the woman had brought in had been wrapped very carefully. Around the outside of each plate was a white stocking wrapped around the plates. They were spoiled, of course, through inexcusable ignorance.

A number of the shutter-snappers have no idea of absorb the idea that the smallest ray that has not passed through a ruby or yellow glass will ruin the undeveloped plate. For this reason the manufacturers are very careful to wrap plates and films in black or red paper before packing them in boxes, and the photographer is careful to paint the interior of his workroom a dull black, not because he pretends to work in a smoky environment, but because the stray ray of white light which might enter the room is absorbed instead of being reflected until it strikes the plate.

These workers, or many of them, have no idea of how the film is treated in the darkroom, have only an imperfect knowledge of the fundamental principles of photography, and make mistakes over and over again. A short time ago a woman, rather past the meridian of life, brought a package to the studio of a professional photographer which, she said, contained a dozen exposed plates she wanted to have finished.

pay a little more if the professional would guarantee that the pictures would be good ones as she was not satisfied with the manner in which the plates had been developed by the man from whom she bought the supplies, and she rather suspected that the darkroom man had contracted the habit of intentionally spoiling the larger part of the plates, in order to boom trade.

Almost every child is aware that the coating on photographic plates and films is so sensitive to white light that the smallest ray that has not passed through a ruby or yellow glass will ruin the undeveloped plate. For this reason the manufacturers are very careful to wrap plates and films in black or red paper before packing them in boxes, and the photographer is careful to paint the interior of his workroom a dull black, not because he pretends to work in a smoky environment, but because the stray ray of white light which might enter the room is absorbed instead of being reflected until it strikes the plate.

The woman left the parcel after paying for the work in advance, and that evening the professional photographer took it, with several others, into the darkroom. The plates which the woman had brought in had been wrapped very carefully. Around the outside of each plate was a white stocking wrapped around the plates. They were spoiled, of course, through inexcusable ignorance.

FATAL RIOT IN FRANKFORT BAR

Soldier and Civilian Killed In First Clash.

Infuriated Troops Then Attack Saloon.

Rain of Bullets For Nearly An Hour.

Sergeant Ingram Tate and Jeff Cook Dead.

William Nichols and Negro Wounded.

Jail Filled With Prisoners From House.

MILITIAMEN UNDER ARREST.

Frankfort, Ky., Sept. 4.—(Special.)—Two men were killed instantly, one man was seriously wounded and another slightly wounded in a pistol battle between soldiers of the Second Kentucky Infantry and civilians in the "tenderloin" section of Frankfort to-night.

The Dead.

SERGEANT INGRAM TATE, Company M, Second Kentucky Infantry, Somerset.

JEFF COOK, Frankfort.

The Wounded.

William Nichols, Frankfort; shot in side.

Eddie Miller, colored, Frankfort; shot in hand.

Saloon Attacked.

Following the shooting, the soldiers, avenging vengeance for the killing of their comrade, attacked the saloon in which the shooting occurred and where the civilians had taken refuge.

At least fifty soldiers were in the crowd which surrounded the house and poured volley after volley into it, while the civilians inside returned the fire with revolvers.

For almost an hour the soldiers and the civilians kept up the firing at intervals.

Col. Allen Restores Order.

Finally, Col. J. Embury Allen, the commanding officer of the regiment, and several other officers, reached the scene with a provost guard. Order was established quickly, and the soldiers then arrested every man found in the saloon. They were all lodged in jail.

William Nichols was able to walk to the office of Dr. Joe Barr, where his wound was dressed. Joe Nichols is said to have fired the shot which killed the soldier. He did not deny the statement of witnesses that he killed Tate.

Provost Guard Arrests Soldiers.

After the men were placed in jail the provost guard went over the city and every soldier found was arrested and taken back to Camp Bell. There a strong guard is maintained and the city has quieted down. It is believed there will be no more trouble, as the jail is guarded to prevent either a rescue or an attempt at lynching.

Hundreds Watch Battle.

For several hours Frankfort was stirred as it has not been stirred since the killing of three men by Dave Colston and the killing of William Goebel. Reports flew about the city, all exaggerated, and the number of dead was reported as being seven. Hundreds of citizens went to the "tenderloin" near where the trouble occurred and watched the battle between the soldiers and the civilians.

At each volley there was a panic in the crowd and for two hours the people in the vicinity of the trouble were cowering in and out of doors and into houses.

Col. Allen's promptness and firmness prevented a general battle and he also stopped the incipient riot which threatened to follow the shooting.

Shooting In Saloon.

As far as could be learned to-night the first trouble started in the saloon of E. W. Howser at Mero and Center streets. According to a witness, Sgt. Tate and Joe Nichols became engaged in a controversy and the shooting followed. Joe Kinkadee, according to this witness, was present and took the pistol away from Nichols after the shooting. Kinkadee then ran out of the door onto the street and it was this fact

that caused the soldiers to think Kinkadee had killed Tate.

Woman In Jail.

Lillian Matthews, who is now in jail where she was taken by the soldiers, made the following statement to the newspaper reporter:

"I went into the winerom and was sitting with my back to the door when I heard three shots. I do not know where they came from. I did not see any men in the room and I did not know who did the shooting. I ran and hid in a closet until after the shooting was over and then I went upstairs and hid myself. I stayed there for two hours when I heard the soldiers say that anybody who wanted to go out of the house could go. I went out and two of the soldiers grabbed me and took me to the jail. They said two civilians were dead in the house."

Civilians Ran Upstairs.

After the killing of Cook and Tate the civilians, fearing the wrath of the soldiers, ran upstairs over Howser's saloon. The soldiers then swarmed in to the place and several shots were fired at them. They returned the fire, but retreated, going back to the street.

Volleys Poured In and Out.

The house was quickly surrounded by the soldiers and when a shot was fired from inside the house a volley was poured into the building by the soldiers. There was a general scattering and panic among the crowds of spectators who had gathered on the streets.

Crowd Flees.

Fearing stray bullets the crowd fled in all directions. Capt. Frank Ripy, of Lawrenceburg, had a narrow escape, a bullet cutting close to his head. He says the first shot was fired from the house and that the soldiers replied with shots. At least twenty shots were fired at that time, but so far as is known no one was hit at that time.

Troops Flock To Scene.

There were threats by the soldiers to burn the house unless the man who had shot the soldier was produced. Crowds of soldiers ran up and down the streets threatening to take the "Craw" region unless they got the slayer of Tate. The excitement continued to increase and more soldiers came from every part of the city after they heard of the shooting.

Capt. Ripy Takes Dynamite Away.

In the crowd that surrounded the saloon a civilian appeared with several sticks of dynamite in his hand and announced that he intended to blow up the whole building. Capt. Ripy, of Lawrenceburg, who had arrived on the scene by this time, saw the soldier with dynamite and got him in time to prevent him from carrying his threat into execution. He took the dynamite away from him and had it put in a safe place. It could not be learned where the soldier got the dynamite.

Soldiers Open Fire.

After the first shooting was all over and the saloon building had been darkened, another shooting was caused by the civilians in the building all the while tried to slip out a rear door. Capt. H. G. Waddle, of Somerset, was stationed in the rear of the building with a squad of men to prevent anyone from escaping, and he called on the two men to halt. They refused to halt, but instead began firing promiscuously. The soldiers also began firing, but no one was hurt.

Say Joe Nichols Killed Tate.

Lynn Phillips and C. E. Toadwine, of Cynthiana, who were in the saloon during the fight, positively identified Joe Nichols as the man who killed Sgt. Tate. "We were sitting at one of the tables in the saloon," said Toadwine, "when we heard an argument in another part of the saloon. We heard one of the soldiers say: 'You are afraid to shoot,' and a moment later I saw that man over there (indicating Joe Nichols) pull his revolver and begin firing. There were five or six other soldiers in the saloon when we went in. We had gone into the saloon to look for a man we wanted to see, but when Col. Allen and some of the officers who had hurried up from camp arrived on the scene the trouble quickly subsided, and after the soldiers had arrested all the men in the house there was no further danger of trouble."

Statement From Col. Allen.

Col. J. Embury Allen was seen by a representative of the Courier-Journal and made a statement as to what occurred in the saloon after the soldiers entered. Col. Allen said: "When we entered the building there was not a light to be seen and we lighted a box of matches in an effort to locate the men."

No Resistance.

"We knew that there were a large number of men there, but for some time we saw no one. We found most of the men on the second floor and ordered them to surrender. They made no resistance. That is one of the worst places you can imagine to go hunting after a lot of men."

Tate Shot Through Heart.

Cook was shot in the breast, the bullet ranging to the left and passing through his body, breaking his left arm. Tate was shot through the heart. Sgt. Tate was a brother of Dr. Tate, the popular young dentist, who was here for several months as assistant to Dr. Nichols.

(Concluded On Page 8, Column 1.)

SEEK WRECKERS OF BLUE FLYER

Big Reward Stirs 100 Detectives To Action.

Many Clews Run Down Without Result.

Three Die As Result of B. and O. Wreck.

DITCH TRAIN IN PENNSYLVANIA

Newcastle, Pa., Sept. 4.—Over a hundred men, all members of State, railway or private criminal-catching organizations, are here to-night straightening out a maze of bewildering clews that may lead to the discovery of the person or persons who early to-day pulled the spikes from a sixty-foot rail on the Baltimore and Ohio railroad near the siding at Chewton, ditching the Royal Blue Flyer en route from New York to Chicago. Clew after clew to those thought to be responsible for the dead was offered these officers to-day, but each led to nothing.

But one definite fact was established. The train ditchers, after they had made the derailing of the flyer a certainty, made across the marshy fields in the general direction of Wampum, a lonely foreign settlement three miles from the railroad and as many more from here. Bloodhounds used by railroad detectives followed a trail from the wreck scene, but after bringing up abruptly at a slaughter pen used by Newcastle butchers, at Wampum, the animals lost the seemingly fresh scent and refused to be goaded on any further.

Return To Scene.

To-night the consensus of opinion was expressed by one of the Baltimore and Ohio police, when he said:

"The train wreckers are in the vicinity of Newcastle. They have not attempted to fly nor will they. They left the scene of their dastardly work and taking a roundabout way came right back to the place they started from."

On this theory the many officers here are working. No little rivalry exists on account of the large reward offered by the railroad company for the apprehension of the criminals.

Since the accident Newcastle has been in the throes of vivid excitement. Farmers in town on business have deserted their trading for the more sensational topic, the train wreck. Even one across the work to be that of other experienced railway men or at least persons familiar with the operation of the railway and its train schedules.

Find Hammer and Crowbar.

The finding of a sledgehammer and a crowbar near the scene of the wreck further substantiates this theory, as the tools were branded with the railway company initials and had been evidently taken from a maintenance of way car stationed here.

All of the injured now at the local hospital will recover, it was learned to-night. Seventeen persons are being cared for at the railway company's expense.

Late to-day \$44,000 was deposited at a local bank by railway secret-service men to the credit of Henry Millard of LaFarge, Wis., who was injured at the Shenango Sanatorium. Millard carried a trip from New York City containing the railroad's negotiable bonds, securities and cash and placed the material under a seal in the day coach.

Money Is Recovered.

When the train was ditched the search was for a time, but recovered by railway employees. Millard was greatly relieved to learn late to-day that his wealth had been taken care of.

"Malicious mischief" and "the deed of hands" are phrases used by the railroad officials in announcing the extent of the wreck. They deny the rumors according to which three persons and fifteen employees of the road for the disaster.

"We accuse no one," said General Superintendent Finney, of the Baltimore and Ohio railroad, to-night.

This, however, is as far as the official investigation has gone. The great wreck of train No. 5, the Royal Blue limited on the Baltimore and Ohio railroad, occurred at 12:25 this morning, causing the death of three persons and injury of about a score of others.

Fish Plates Removed.

The train was westbound from Pittsburgh to Chicago, and when two miles from Newcastle at a little place called Chewton, Pa., ran into a misplaced rail. Wreckers had removed two fishplates, moved the north rail inside and had pulled out the spikes. The entire train was thrown from the track. The great wreck at which it was traveling caused all the cars and engine of the train to topple over on their side and slip with force over a small embankment.

Following is a list of the killed and seriously injured as given out by the Baltimore and Ohio Railroad Company:

The Dead.

CHARLES A. DILL, engineer, Chicago Junction, O.

GEORGE WHEATCRAFT, train baggagemaster, Chicago Junction, O.

E. P. KAYNAUGH, chief boiler inspector of the B. and O. road.

Seriously Injured.

Henry C. Millard, passenger, age 54, at Shenango Valley Hospital, Newcastle.

Slightly Injured.

Charles Bukl, Austrian, passenger, Joliet, Ill.; jaw badly injured and knee sprained.

Mrs. Sonoma Dippin, passenger, age 48, residence unknown. She was en route to Tiffin, O. Now at hospital, Newcastle.

J. H. Lamson, single, age 35, residence Indianapolis; back bad; now in hospital at Newcastle.

Mrs. W. McChesney, married, passenger, Chadwick, Ill.; slightly injured; now in hospital at Newcastle.

A. C. Nicol, age 32, single, Frostburg, Md.; slight; now in hospital at Newcastle.

Mrs. H. B. Senneff, passenger, age 40, Chadwick, Ill.; slight; in hospital at Newcastle.

Master Kenneth Senneff, passenger, age 3, Chadwick, Ill.; slight; in hospital at Newcastle.

Deliberate Case of Wrecking.

According to General Superintendent R. Finney, it was a deliberate case of train wrecking. The rail on the right side was cut at the point and the spikes pulled on both sides nearly the entire length of the rail. The approach rail was moved in far enough to clear the wheels. The spikes were pulled by a bar. The bolts and nuts of the joint showed they had been removed with a wrench. One spike bar was placed between the rails to keep them from going together.

Immediately after the accident a train was made up and the uninjured passengers, after being transferred, continued their journey westward, leaving at 5:25 o'clock this morning. The eastbound tracks were not obstructed by the wreck and the westbound track was expected to be cleared about 10 o'clock.

TWO ARRESTS MADE.

Refuse To Account For Recent Movements To Detectives.

Ellwood City, Pa., Sept. 4.—It is believed that the men guilty of wrecking the Baltimore and Ohio train No. 5, near Chewton siding, early to-day, are in custody at this place. To-night railway detectives arrested two men, who, after being questioned, left their whereabouts and movements for the last twenty-four hours shrouded in such mystery that they were locked up on suspicion.

One of the suspects has a wooden leg and is said to have been a former employe of the Baltimore and Ohio railroad. The two men, it is said, spent last night in Wampum, the little settlement where to-day bloodhounds ended a trail hunt of many miles.

Immediately after the suspects were taken to the Ellwood city jail Superintendent Delahanty, of the Baltimore and Ohio section, left for Pittsburgh with several men for this place. Ellwood City is but sixteen miles from Newcastle.

REWARD OF \$25,000

Offered By Vice President For Conviction of Miscreants.

Baltimore, Md., Sept. 4.—Vice President Nelson J. Edwards, member of the Baltimore and Ohio railroad, to-day telegraphed General Superintendent Finney, of that road, at Pittsburgh, to offer a reward of \$25,000 for the arrest and conviction of the persons guilty of wrecking the Baltimore and Ohio flyer at Chewton, Pa., last night.

DEATH CALL FOR THE REV. DR. MEEK.

Noted Catlettsburg Divine Passes Away After Long Life As Editor and Pastor.

Catlettsburg, Ky., Sept. 4.—(Special.)—The Rev. Zephaniah Meek, D. D., died this morning from a complication of diseases due to advanced age. He had recently celebrated his 76th birthday anniversary.

He was a native of Johnson county, where he resided until after the close of the Civil War, when he located in this city and engaged in business. In 1867 he founded the Christian Observer, a religious newspaper, devoted to the special interests of the Methodist Episcopal Church, South, in Kentucky and West Virginia, but later changed the name of the paper to the Central Methodist.

Several years ago he severed his connection with the paper and has given his attention to other business, preaching on special occasions.

He was the father-in-law of Mrs. Marie P. Meek, member of the faculty of the Millersburg Female College, and father of Mesdames T. C. Atkinson and M. V. Brown, whose husbands are members of the faculty of the West Virginia University, at Morgantown, W. Va. Besides, he leaves four sons and another daughter, Mrs. J. H. Hatton, of Independence, Mo.

TWO WOMEN CLAIM BODY OF CRAIGHEAD.

Illinois Widow Demands That Remains Be Disinterred For Identification At Goshen, Ind.

Goshen, Ind., Sept. 4.—Two women are here asserting the body of the right of the body of P. Craighead, who was killed by a train in Chicago recently. The body was brought here by Mrs. Craighead, of this city, and buried to-day another Mrs. Craighead, of Waukegan, Ill., arrived with her daughter, Mrs. Eula M. Durre, declared that Craighead was her husband and demanded that the body be disinterred for identification.

The Waukegan Mrs. Craighead said that her husband left home for a trip to Shreveport, La., and did not return. No decision as to whether or not the body should be uncovered has been reached to-night.

Craighead, it is claimed, was known in several cities as Drexel.

TWO LABORERS KILLED BY SEWER DITCH CAVE-IN.

Chicago, Sept. 4.—Two men were killed and six injured at East Chicago, Ind., to-day when the walls of a sewer ditch ten feet high caved in on twenty-two men who were working on it. Immediately formed a rescue party, but at first it appeared as if it would be impossible to reach the buried men before they were suffocated.

The first two bodies taken out were those of the dead men. Another body was taken out and found that all of the others were alive as the boards at the side of the ditch had fallen over them in such a manner that they were protected from the crushing sand and given enough air to keep them alive.

WIFE OF PHYSICIAN SUES FOR DIVORCE.

Newport, Ky., Sept. 4.—(Special.)—Mrs. Florence Barker, wife of Dr. Virgil Barker and sister-in-law of Mrs. Herbert Jackson, has asked that she be divorced from her husband and restored to her maiden name of Miss Florence Spahr. Mrs. Barker says her husband, Dr. Barker, whom she married in St. Louis in 1904, has abused her and thrown cucumbers at her head. She wants to have her personal property accounted for and returned to her.

FARMER IS INJURED FROM A FALL.

Carlele, Ky., Sept. 4.—William Smith, a prominent farmer, of near Sherburne, is reported in a serious condition from injuries sustained when he lost his footing and fell from his barn while housing tobacco.

For the Boys Going Off to

College

And the School Boys Who'll Stay at Home

We're Ready

With New Fall Goods.

Ready with new ELBEE and HART, SCHAFFNER & MARX SUITS, in the new "Varsity" styles—with all the "swagger kinks" to 'em that the "college fellows" like. And with new FALL TOP-COATS and RAINCOATS, including a complete line of English Gabardines, English Mackintoshes and regulation styles—also heavy overcoats.

Ready with new FURNISHINGS and HATS and SHOES. Everything to complete the outfit which the young fellow had better take with him when he leaves home.

Ready also with all these things for the school boys who stay at home—whose parents want to provide the "best that's going" for them, in clothes as well as education. But bear in mind that

Cut Prices Still

prevail all over the house; which is yet TOO FULL of broken lines that have to be cleared out right away. For instance:

Boys' \$3.50 and \$4 Knee-Pants Suits for... **\$2** And \$5, \$6 and \$7.50 Suits for... **\$3**

Odds and ends and Russian wash suits; \$1.50 to \$2.50 values... **43c**
 Knee Wash Pants, big line; 25c goods... **12½c**
 Knicker Wool Pants; 75c goods... **42c**
 Boys' Straight Pants, \$1.50 values, 88c; \$1.00 values... **48c**

In Men's Suits

Choice of our Elbee and Hart, Schaffner & Marx \$25, \$28, \$30 and some \$35 2 and 3-piece suits for... **\$15** And \$15, \$18 and \$20 2, 2 or 3-piece; all patterns and colors, except blacks and blues, for... **\$10**

LAST COMPANY TO VOTE DECIDES RACE

CLOSE CONTEST FOR LIEUTENANT COLONEL OF SECOND.

MAJ. NELSON J. EDWARDS IS ELECTED AT FRANKFORT.

COL. ALLEN RE-ELECTED.

Frankfort, Ky., Sept. 4.—(Special.)—The election of officers for the Second Regiment was held at the camp this afternoon shortly after 1 o'clock and Col. J. Embury Allen was re-elected Colonel without opposition.

Lieutenant Colonel after a hot and exciting race, the difference between him and Capt. H. J. Gibson being only fourteen votes. It was necessary to have every man in the regiment vote before the race was decided and the last company turned the scale in favor of the Covington man.

Capt. George T. Smith, of Company M, of Beattyville, was elected Major of the Third Battalion. Capt. C. W. Longmire was re-elected Major of the Second Battalion and Capt. John A. Webb of Whitesburg, was re-elected Major of the First Battalion.

Lieut. Col. E. W. Lillard declined to allow his name to be voted for re-election.

Adj. Gen. Johnston learned to-day that the reason that two companies of the Second Regiment, the 1st and 2nd, were in camp with the regiment is that he is camp from Lexington on his vacation. The matter was discussed at the regular drill dinner to-night.

At 5 o'clock the regular dress parade will be held. This will be after the inspection by the United States officer assigned for this duty, who will report upon the condition of the regiment to the War Department. The officer who will inspect the Second Regiment is Maj. Jackson, of the Twenty-sixth Infantry, stationed at Fort Huron.

The officers of the Second Kentucky are a dinner to-night in honor of Gov. Willson and Adj. Gen. P. P. Johnston. Mrs. Willson was invited and expected to go to the dinner, but was not able to use her hand with enough ease. Several of Frankfort's society women were present and the dinner was rather an elaborate affair for a military camp.

At the rifle range to-night Capt. Morris made eight bullseyes out of the center of the 500-yard range with a candle behind the target to light it. Gov. Willson witnessed the shooting, but did not try his hand.

JUDGE S. W. HAGER NEWSPAPER OWNER

STORY HE WILL CLOSE DEAL FOR OWENSBORO INQUIRER.

MEANS REPUBLICANS MUST ESTABLISH NEW ORGAN.

NOMINATIONS BY DEMOCRATS.

Owensboro, Ky., Sept. 4.—(Special.)—Judge S. W. Hager, of Ashland, the Democratic nominee for Governor in the next campaign, is endeavoring to purchase the Owensboro Inquirer, an afternoon paper owned by W. Q. Adams, of this city. Mr. Hager will arrive in Owensboro on Monday, when it is said that the proposed deal will be closed. The Inquirer has generally supported the Republican nomination and in the event that it is sold to Hager, the Republicans of Owensboro intend to establish a paper of their own. This matter was discussed at the recent Bradley dinner in Louisville.

Livingston Democrats Nominate.

Paduah, Ky., Sept. 4.—(Special.)—The Democrats of Livingston county held a primary to-day and nominated officers for the November election. It was harmonious, and the leaders believe that the ticket will win easily. The nominees are: County Judge, W. C. Clark; Circuit Clerk, Harry Green; County Attorney, J. D. Threlkeld; County Court Clerk, Dave Webb; Sheriff, E. E. Foster; Superintendent of Schools, G. R. Hurley; Assessor, P. R. Ryan; Jailor, Fred Hardy.

The Farmers' Union took an active part in the primary and is pleased with the result.

Republicans Nominate Deadman.

Springfield, Ky., Sept. 4.—(Special.)—The Republicans of Washington county met in convention at the courthouse in Springfield this afternoon for the purpose of nominating candidates for county offices. The convention was called to order by County Chairman W. F. Grigsby. Only one nomination was made. E. P. Deadman for Representative. Mr. Deadman is a farmer and a teacher and lives in the northern part of the county. T. D. Graham is the Democratic nominee.

Instructions For Banker.

Hopkinsville, Ky., Sept. 4.—(Special.)—Republicans of Christian county in mass convention this afternoon appointed delegates to the Sixth district national convention at Madisonville. The delegates were instructed to vote for Edward E. Long as the Republican nominee for the State Senate in the Christian-Hopkins district. Christian county has forty-six votes in the convention. It is understood Mr. Long will be nominated by acclamation. He is president of the City Bank of this city.

Superintendent Resigns.

Winchester, Ky., Sept. 4.—(Special.)—C. H. Tanner, County Superintendent of Schools, resigned to-day to take charge of the public schools at Cloverport, Breckinridge county. Judge Evans appointed Prof. John E. Lanier to fill the vacancy. Prof. Tanner is the Democratic nominee for the position and will likely have no opposition in November.

Two Candidates Named.

Mt. Vernon, Ky., Sept. 4.—(Special.)—Democrats nominated T. J. Hayes for County Judge and William Coffey for Jailor. The County Committee was empowered to complete the ticket.

MAMMOTH GROCERY CO.

(Incorporated.)

KENTUCKY POSTMASTER ARRESTED IN CHICAGO.

W. H. Wood, of Stanley, Alleged To Be Several Thousand Dollars Short.

Chicago, Sept. 4.—William H. Wood, 23 years old, postmaster at Stanley, Ky., was arrested here to-day. He is said to be short several thousand dollars in his accounts with the Government. He left Stanley some time ago after Post-office Inspector R. M. C. Hooford, of Cincinnati, discovered the alleged shortage. Mr. Hooford finally traced him to this city.

FOUR THOUSAND AT SIMPSON COUNTY FAIR.

Franklin, Ky., Sept. 4.—(Special.)—Although the day was very disagreeable on account of rain, 4,000 people passed into the gates of the Simpson County Fair on the closing day. The fair was a success from every standpoint and the three days' meeting brought together some of the handsomest stock shown in Southern Kentucky in years.

Before the draining and diking of England and Holland, mosquitoes thrived and undrained, neither of these countries had risen to its high place in history, but had been balked by natural degeneration.—(New York Press.)

Have Your Clothes Tailored To Measure. It Pays.

A good tailor—and only good tailors are real tailors—studies his patron as a *miniaturist* observes his *model*—he first catches the *spirit* of the man's *individuality* and then creates clothes that not only fit his *person* but also his *personality*. His garments are always *distinctive*—always a bit *unlike* all other suits—they bear the stamp of *craftsmanship*. They are never *extreme*—never *obtrusive*—never *exaggerated*. Just as force is strength in *repression*, just so style is most definite when *subdued*. Merchant tailoring is a *trade* which is an art. The impulse which leads men to *prefer* an *original* painting to a lithographed reproduction will always keep merchant tailoring securely rooted in its place of *leadership*. It cannot be *displaced* except by a logical *substitute*; something which up to now has not appeared.

GETTING READY FOR THE FALL RACES

Manager Winn Expected Home To-day and Programme For Meeting At Churchill Downs Will Be Speedily Arranged.

SOME LIVELY GOSSIP OF THE LOCAL TURF

MATT J. WINN, manager of the new Louisville Jockey Club, is due to arrive home from Mexico to-day and to-morrow, which begins the formation of the programme for the coming fall race meet, which begins on September 25. No stakes will be run off here this fall, but a liberal collection of purse races will be hung up and the handicaps will be especially attractive in added money. All the races will be scheduled so as to bring together the best horses now in training in the West, the bulk of which are at present racing on the Canadian circuit. Incidentally, it may here be mentioned that it has now become known that all the old officials at Churchill Downs will be retained in service at Col. Winn's Mexican racing plant the coming winter, the racing season in that country under American management beginning on Thanksgiving day. This fact leaked out by the tender to Geo. H. Lindenberger of the position of official timer, a position he has held at Louisville, Lexington and other Western and Southern tracks for several years. Lindenberger has accepted the place and will go to Mexico as soon as the racing ends in Kentucky this fall, which will be on November 6, unless Lexington cuts in for six or seven days' racing after that date.

While in attendance at the barbecue here Arthur Rose, secretary of the Kentucky Racing Commission, who is also a Lexington racing official, stated that regardless of the Court of Appeals decision in their case against the State Racing Commission, the Kentucky racing officials will meet this fall, beginning October 11. According to Rose, if the Court of Appeals hands down a decision favorable to the commission, the Lexington meeting will go on with mutual and auction pools as the accommodations for bettors, but if the track wins in its contest of up to the date of the meeting, the court has not decided the case then.

Bookmakers will again hold sway there in the betting ring. But under any conditions, the new Louisville Jockey Club will have a full race meeting, says Rose.

Alt V. Oldham, of this city, has a coming season by his old campaigner, Col. Jim Douglas, who is expected to win a Kentucky Derby with when the youngster is old enough to race in the Louisville blue and white. Oldham, who was trained by Col. Jim Douglas, as that horse was named to but one race in 1908, the Kentucky Derby, and Oldham as a consequence, and if Rodgop can get him ready he will do some racing with him at the coming Kentucky Association track at Lexington, and if Rodgop can get him ready he will do some racing with him at the coming Kentucky Association track at Lexington, and if Rodgop can get him ready he will do some racing with him at the coming Kentucky Association track at Lexington.

The son of Henry Young has not started since the 1908 spring meeting at Churchill Downs. He was not trained last spring and Oldham as a consequence, and if Rodgop can get him ready he will do some racing with him at the coming Kentucky Association track at Lexington, and if Rodgop can get him ready he will do some racing with him at the coming Kentucky Association track at Lexington.

Bay col by Imp. Kilikarney—Miss Rose, Chestnut col by Stallwart—Mary Callahan.

Bay col by Orimar—Luttrell—Margaret.

Brown col by Imp. Orlando—Margaret Doyle.

Chestnut col by Stallwart—Young Thyme.

Brown col by Imp. Knight Errant—Margaret Roche.

Another horse whose colors will be seen on the turf next season are the Young Americans, who recently secured him in a trade for Tom Jones. Roseman played right field for St. Louis here Thursday and Friday. Some of his work yesterday is said to have been harshly criticized by his new team mates and to-day he refused to don a uniform and announced he was through with St. Louis for all time.

STILL HAVE CHANCE FOR THE PENNANT

Louisville Enthusiasts Believe That Colonels Will Be Able To Win 80 Per Cent. of Remaining Games.

GRAYSON TO STRENGTHEN TEAM NEXT YEAR.

FINE results are being obtained by the Colonels on the present trip. Leader Peitz is after his men from the start of the game until the third man is declared out in the last half of the last inning. The result of it is the Colonels are now playing at top speed and the veteran catcher is continually urging his men to play the hardest sort of ball in all departments of the game. This injection of pep, per on the part of Heine Peitz has produced fine results.

The Colonels are finishing up their final swing on foreign territory. To date they have played six games on the trip and have played five of them on the winning side of the ledger. They have been able to furnish a stiff article of ball because the defensive work continues to be excellent. Coupled with this is the addition of Vaughn, Fenlon and Salm, and the batting department has shown considerable improvement.

With thirty games yet to be played before the schedule is finished it looks as if the Colonels still have a chance for first place. In order to win the championship the local team must win 80 per cent. of the remaining games they will play.

Will the Colonels be able to do this? This is a much disputed question among the local fans. If the Brewers continue to win as they have been doing, but that they will capture the pennant in the American Association. If McCloskey's men fail to maintain their present gall and the Colonels manage to continue to add victories Peitz and his players might be able to capture the pennant.

The Minneapolis Millers have been weakened considerably by the loss of the Chicago White Sox. This means that the Louisville Colonels are in a favorable position to succeed in overtaking the Minneapolis team. The battle will then be between the Grayson and the Brewers.

The Iowa from the Cream City have a lead now of seven and one-half games. This seems almost impossible for the locals to overcome. Should McCloskey's men fail to maintain their present gall, fall down the house of Peitz will have a splendid chance to land the banner.

It is not a question now of whether the Colonels will finish this season in third place, but it is a battle for the top position. It looks as if it is a far cry to first place, but at the present speed that the Colonels are going this ought not to be hard to overcome. A lead of this kind has been overtaken in previous seasons by other clubs, and there is no reason why the Colonels should not be able to turn the trick.

The Colonels are scheduled to play twenty-three games at Eclipse Park, with the pitchers all in shape and with the men behind the batting in timely fashion, the local fans will likely have a chance to see some fine sport here before the season ends.

President Grayson is now exerting his efforts toward strengthening the club in order to start the 1910 season with a strong team. The new owner of the Louisville ball club has his lines out for several seasons players. He does not want to mention the names of the men he has under consideration. If he did it would in all likelihood interfere with the deals, but the 1910 Colonels will start their campaign in much better shape than they did last year.

Should the Colonels fail to capture the pennant this year, there will be no cause for any complaint. Taking everything into consideration, Heine Peitz has done remarkably well. He was handicapped in many instances, notwithstanding the fact that it was claimed he had a strong team to battle for the 1909 pennant.

When Peitz was placed in charge of the Colonels this year a number of the local fans declared that the German batter would not succeed. Considerable feeling was displayed due to the fact that the veteran catcher did not take offense at the adverse criticism of the Louisville rooters. He kept his countenance and with a good start.

During this season, has been able to keep his team within a short distance of first place. He has worked hard and the chances are bright that he will be rewarded for his efforts by finishing the same position this season as the Colonels did in 1908. Peitz is a man who will not give up until the last player is a chief maintainer. For this reason he will depend on it that the veteran backstop will struggle hard in the final dash for the wire to beat out the present leaders.

FINE GAMES PROMISED AMONG AMATEURS.

Butchertowns and Reserves Again.

The third and final clash between Manager Glenn Vance's Reserves and Butchertown Champs will be the action this afternoon at Butchertown Park. Webster and Story avenues. This game was to have been played on Sunday, August 8, but was called a postponement. Both teams have been playing better ball than earlier in the season. The Butchertown team having won the past few weeks, and the Reserves have a few more to go. Manager Vance's boys expect to win the local championship, and as a loss of day's game would complicate matters, they will exert every effort to capture the rubber from the Reserves.

Elwood Harper, who last Sunday pitched a four-hitter against the Reserves, will be in the box for the East Enders, with Evans behind the bat, while Becker, and Umpire Murphy will announce the result of the Columbus-Louisville games by innings.

Portlands and Glenwoods.

The card at Portland Park, thirty-second street and Ninth avenue, this afternoon will be the strong Glenwood team. As the Hoosiers have defeated the Champs twice this season, the Portland management has arranged a series of three more games with them, the first of which will be played to-day. Manager Darden will announce that he will bring a large delegation of Indiana rooters with him to cheer his boys.

The second game of the series will be played on Tuesday, and the third on Wednesday. The Glenwood team is a record-breaking team, having won all their games. The Portland team is a strong team, having won all their games. The Glenwood team is a record-breaking team, having won all their games. The Portland team is a strong team, having won all their games.

King's Daughters' Benefit Game.

To-morrow afternoon one of the most interesting games of the season will be played at Seaside Park, when the Best Gun and Stettin club, of the City League Amateur Baseball Association, will play the King's Daughters' team. The King's Daughters' team is a strong team, having won all their games. The Best Gun and Stettin club is a strong team, having won all their games.

Cubs To Play All Stars.

At Reclus Park this afternoon and to-morrow afternoon the local followers of the Louisville Cubs will be given an opportunity of seeing plenty of baseball, as arrangements have been made to play a double-header to-day and to-morrow with the All Stars of Detroit. The All Stars are composed of crack players from various teams and are said to be a first-class semi-professional team. The battery for the All Stars will be Hornbuck and Dead and Long. For the Cubs, Martin and West and Mitchell will work. The first game will be called at 1:15 o'clock.

Golden Glow, Which Has Just

MADE A RECORD IN THE SHOW RING

The five-gaited saddle mare, Golden Glow, the property of A. S. Burr, of Illinois, trained and schooled by Russell Bailey, of Buck Run farm, Versailles, has just concluded a successful season at the Louisville show ring. She has been showing for five successive weeks. She is credited with twenty-five shows, twenty times first, four times second and once third. She leaves behind her a name in Missouri that no animal has ever equaled.

SWEEP, B. C., 2 BY BEN BRUSH—PINK DOMINO, BY DOMINO.

SOUTHERN LEAGUE.

Mobile 3-1, Nashville 1-5.

Mobile, Ala., Sept. 4.—Mobile and Nashville split a double-header this afternoon. Mobile taking the first, with Suggs against Case, and losing the second, with Allen against Dugan. A pass, a sacrifice, a passed ball and two clean hits, coupled with some rugged fielding by Wiseman and Seale, gave Mobile two runs and the game in the sixth inning of the first game. Nashville bunched three clean hits in the first inning, but sharp fielding on the part of Mobile prevented them from scoring. They bunched another three in the fourth, but got only one run. In the second game Allen lost his own game. He passed a ball in the first and a sacrifice, he passed a ball in the second, and he scored again. He passed a ball in the third, and he scored again. He passed a ball in the fourth, and he scored again. He passed a ball in the fifth, and he scored again. He passed a ball in the sixth, and he scored again. He passed a ball in the seventh, and he scored again. He passed a ball in the eighth, and he scored again. He passed a ball in the ninth, and he scored again. He passed a ball in the tenth, and he scored again. He passed a ball in the eleventh, and he scored again. He passed a ball in the twelfth, and he scored again. SECOND AND GUTHRIE.

HIS VIEWS ON MARRIAGE.

(Philadelphia Times.)
A young man who works in a Chestnut-street store was invited by his employer's home for supper last night. The purpose of the invitation was to introduce the young man to the employer's daughters. After supper the old man said:
"Yes, I am proud of my daughters, and would like to see them comfortably married, and as I have made a little money they will not go penniless to their husbands."

ANDREWS, DRIVER OF HAMBURG BELLE, PROCTOR, DRIVER OF UHLAN

INTERESTING EXPERIENCES OF SHORTSTOP DAHLEN

To Tell of Boyhood Pranks and People of the Baseball World Who Were Prominent.

EXPERIENCES UNDER ANSON, OF CHICAGO TEAM.

W. F. DAHLEN, of Brooklyn, the famous shortstop of the Boston National League baseball team, has a mother, a brother, a sister and other relatives in Neillston, just across the Mohawk River from Fort Plain, N. Y., and when there is nothing in the baseball line he spends quite a bit of time in that neck of the woods. Such was the case last winter, but although Dad Bill was there several weeks very little was seen of him by his companions of the days when he played with a yarn ball covered by the village harnessmaker.

There was considerable wonderment, mixed with disappointment, as Dahlen had previously been coking good company, and was wont to regale his pals with baseball anecdotes. The secret of his seclusion has been revealed, and the villagers of Neillston and Fort Plain know that he is writing his memoirs of the baseball world. Those on the inside declare that he will finish the task shortly, and then to some anxious publisher will be the manuscript.

A peep at the copy thus far prepared indicates that Bill's book will make mighty interesting reading. For instance, in a reminiscent vein relative to his experiences under old man Anson of the Chicago team Bill tells how he once placed a line on himself, thinking that as a restaurant representative who was taking orders in a railroad coach in which the team was traveling, he should bring him sandwiches for a team with a ham captain. Bill wasn't aware that Anson was within earshot, but such was the case.

Some of His Pranks.

In his boyhood Dahlen was the neighborhood live wire and pest. Years ago his father, now dead, was a contracting mason, and often had a dozen men working for him, several of whom boarded with him. In those days cattle hair was used in wall plaster, and it was not unusual to find a man with a head of hair as white as a cloud. As a boy Dahlen was a bit of a prankster, and it was not long before he had obtained a fat lot of white hair.

SPIKES AN ISSUE IN THE AMERICAN LEAGUE

Ban Johnson Says He Proposes To Take Some Action In Order To Do Away With Constant Injuries To Players.

AMERICAN LEAGUE folks are having quite a controversy about the use of spikes. "Ban" Johnson, president of the organization, says something will be done at the annual meeting next winter to put an end to the frequent injury of players on the field through the use of spikes. He will have plenty of support in any measure which he may propose.

The controversy started when "Connie" Mack criticized Cobb sharply because he spiked Baker.

"You can take this from me, I am going to see to it that the American League puts a stop to 'Ty' Cobb and his style of ballplaying," said Mack. He was discussing the spiking of Baker by Cobb in talking into third base the other day. "Cobb has vowed to get Baker, Barry and Collins," continued Mr. Mack. "He got Baker and knocked Collins' feet from under him sliding, but failed to drive his spikes home. I am not well enough acquainted with the young man to understand why he should do those things; it looks to me as though he gets up with a grouse and decides to take it out on the opposing team. Organized baseball should not permit such sandbagging tactics. It is too great a national game now. I will start a move at the first opportunity to put an end to it, and I will keep at it until I succeed. My first step will be against 'Ty' Cobb."

Manager Jennings made a comment on Mack's announcement which seems "right," he said. "Connie" wouldn't have said that if he hadn't been bitterly disappointed by the results of the games which Detroit won by superior gamesmanship. He came here expecting to take three

NEW RULES FOR THE AUTO RACES

Worry of Repair Work On Cars To Be Removed From Drivers.

TRYING TO AVOID ACCIDENTS.

Every Indication That the Vanderbilt Cup Event Will Be Run Next Month After All.

INTERESTING MOTOR CHAT.

STEPS are being taken by officials of the American Automobile Association to minimize the danger of accidents in motoring events in this country, and one of the most radical steps in this direction has been taken by Chairman Hower, of the A. A. A. contest board, in connection with the road racing carnival at Lowell, Mass. He has agreed to accept the suggestion made by David Beecroft, of the Chicago Motor Club's technical board, who has argued since the racing Indianapolis that the drivers should not be compelled to fill up their cars with gasoline, water and oil, or change tires; that it was hard work and particularly so for men undergoing the strain of a long contest.

Beecroft declared that at the repair pits, when supplies of this nature are taken aboard, that two pit attendants should be ordered to fill the tanks or change the tires while the driver and mechanic are taking a rest or getting a bite to eat. It is said many accidents can be traced to the fatigue of driver and mechanic who have become exhausted through their labors at the pits, which made the race as much a test of men as of cars.

This matter was presented to Chairman Hower, and he was at once struck with the common sense of the suggestion. It had been asked that this supply only to the long races, but Hower ruled that this be permitted in all the events scheduled for next week. He, however, stated that the driver and mechanic must do all the technical work on the car and that none of the pit attendants could help them at the track.

This will be an innovation, for from the first days of racing to the present all this heavy work has been handled on the crew of the car. Even in Europe, where road racing has been made a position, this has been insisted upon, and it is believed that the innovation introduced at Lowell will result in its adoption all over the world.

Drawings for position in the races at Lowell have taken place, and in the 38-mile national stock chassis race set for next Wednesday, Lewis Strang, in the Buick will carry No. 1. On an American will be No. 2, with Bob Strang, of Chicago, at the wheel, while Hughes, in an Allen-Kingston, will be No. 3; Burman, Buick, No. 4; Grant, Alco, No. 5; Poole, Buick, No. 6; and the 25-mile race will be run by the same drivers. The 100-mile race will be run by the same drivers. The 100-mile race will be run by the same drivers.

There will be a lot going in the way of road racing this fall outside of the Lowell race. The Pacific coast, and one of the features of that way this month will be the renewal of the scramble for the 100-mile race. It will be run by the same drivers. The 100-mile race will be run by the same drivers.

Gold, almost as much as to be poured into the Indianapolis Motor Speedway. The management has decided to spend \$100,000 on the famous track that has already cost over \$50,000 to date. The management has decided to spend \$100,000 on the famous track that has already cost over \$50,000 to date.

Another scheme that will be tried will be to place a guard rail on the outside of the track as well as along the inside. This will be a strip of sand fifty feet in width, so that the cars will not be able to run off the track. The management has decided to spend \$100,000 on the famous track that has already cost over \$50,000 to date.

United States army officers and authorities of the Northwestern Military Academy are conducting interesting experiments at Chicago which seem to prove the efficiency of armed automobiles against airplanes in time of war.

Some time since the commandant purchased a thirty-horse-power car and had it equipped with a rapid-fire gun. For purposes of experiment one of the army officers of the academy was loaned by the War Department.

On several different occasions the airplane has ascended and hovered over the car, and each time the car has been able to bring the airplane down to the ground a mass of tangled wreckage.

Short Automobile Chat.

There are approximately 2,000,000 miles of earth roads in the United States.

The Automobile Club of Buffalo, N. Y., now has more than 1,800 members, forty having been added to the rolls during July.

A road race, to be held annually between Kansas City and St. Louis, is being talked of by the Automobile Club of Jefferson City, Mo.

A contribution of \$5,000 toward the construction of a new road connecting Nice with Monaco has been made by the Touring Club of France.

The city of New York covers 327 square miles and has 6,000 miles of streets. If placed in a straight line the streets would reach San Francisco and half way back again.

Coyote hunting in motor cars is a favorite sport at Vail, Mont. The sport is exciting and the bounties on coyotes scalp pay the gasoline bill.

Machines are not being imported for the spreading of tar on roads, so as to save labor, and various counties and cities no doubt soon will be in possession of complete tarring apparatus.

More improvement has been made within the past few weeks to roads in the vicinity of Mason, Ga., than in years past, due almost entirely to mortgaging.

Ralph De Palma, who holds the on-mile track record, declares the circuit in Suffolk county, Long Island, over which the stock sweetstakes are to be run on September 21, is one of the finest courses he has ever seen.

"They copied all they could follow, but they could not copy my mind. And I left them sweating and stealing a year and a half behind."—Kipling

MILES AUTO CO. (Incorporated.) 452 THIRD AVENUE.

the length of Long Island, wide enough to permit of traffic in opposite directions at speed, would lead to the construction of automobile highways where the demands of the speed machine can be satisfied in comparative safety.

Until this is accomplished, however, the public demand motor speed events.

It was stated the other night by a man very high in automobile circles that the 1910 Vanderbilt cup was more than a possibility—that it was practically a sure thing. The news will come as a big surprise to close students of the motorcar racing from coast to coast. Rumors have been current for the past few weeks that a Vanderbilt cup race would be held this year, and many indeed have been the speculations proffered on the subject. The conjectures that have been aired are many, and in the 37-mile race a Chevrolet in a Buick will head the procession.

Connecticut has given fresh evidence of its intention to deal fairly with motorists. Car registrations which expire between now and the close of the year will be permitted to remain in force until January 1, when the new motor law goes into effect and all owners of cars will have to obtain new licenses.

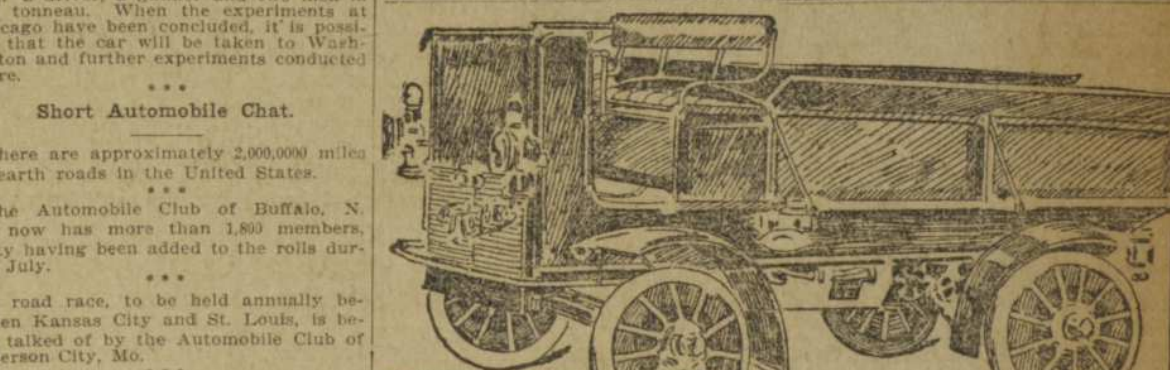

The work on improving the roads for the national stock chassis race at Lowell, Mass., is progressing satisfactorily and nearing completion. A large force of workmen has been engaged in the construction of a pontoon bridge across the Merrimack River and the grandstand is well under way.

Tour Through Bluegrass.
Mr. and Mrs. Scott W. Moore, accompanied by Mr. and Mrs. E. P. Polouse, who made a five days' automobile trip through the Bluegrass section of Kentucky last week, report the roads in a splendid condition. They visited Shelbyville, Frankfort, Stamping Ground, Lexington, Georgetown, Richmond, Winchester, Nicholasville, and back to Louisville via Frankfort and Shaysburg. During the five days they were delayed but twenty minutes for repairs, the distance traveled being about 500 miles through the most beautiful section of the Bluegrass region.

The Last Stand of the Elk.
(James E. Sawyer in September Recreation.)
There is a vast region in Southern Oregon where the watersheds slope toward the coast. Here Coos river rises and winds its way westward through mountain defiles; and to the south, the north fork of Coquille River and its tributaries rise and flow through passes even more abrupt; then to the north Lake Creek and its branches drain a large district and its waters finally find their way to the Umpqua. A few small streams, however, remain in their wild freedom over this territory.

Rooting for the Tigers caused the death of a man. August 25, of Arnold Brown of Quebec, visiting relatives. He had a slight touch of consumption, physicians say. His cheering at the game of August 20 caused a hemorrhage which resulted in such a rapid spread of the disease that he died.

Manager George Stallings signed Jack McCormick, former trainer of the Chicago Cubs, as trainer for the Highlanders.
After each victory President John F. Taylor furnishes the Boston players with a box of five cigars.

MEETING ENDS AT FORT ERIE

Cold Weather and Rain Keeps Attendance Down To Only Regulars.

THE IROQUOIS HOTEL STAKES.

Gager, the Rank Outsider, Belonging To Barney Schreiber, Is First In the Feature.

PRINCE IMPERIAL IS SOLD.

BUFFALO, N. Y., Sept. 4.—(Special.)—Cold weather marked the closing of the fall meeting here. A high-class card had been arranged for the occasion, having as its headliner the rich Iroquois Hotel Stakes, but it failed to draw out the anticipated record crowd, only a handful of regulars braving the rain and mud to journey to the track.

Among those present were Messrs. Louis Cella and John Condon, the blind turfman, from Chicago. Their presence was understood to have been occasioned as a result of a hurry-up meeting of the directors which was called for the purpose of ousting John Madigan from the position of manager of the Fort Erie track.

Racing itself was fraught with numerous surprises, the greatest of all resulting in the running of the feature event, which went to a rank outsider, Gager, a maiden performer from the barn of Barney Schreiber. Eddie Tribe, who replaced Starter Dade at the barrier, was unfortunately in sending the field away to a poor break, with Force in front by several lengths and the balance of the field strung out badly. Good Intent, an added starter, made a bold bid to catch the leader in the early stages, but succumbed to the horse. Entering the home stretch both Gager and the odds-on favorite, and Sager moved up strong. The heavy impost, which the Pace contingent was asked to carry, however, apparently anchored him and he dropped back into the third pocket, while Sager came on winning by a couple of lengths. Galesca, the supposed good thing, never seemed to get going, being buffeted about in the early stages and stopping to a walk in the third.

Prince Imperial was sold to Tom Welsh for \$12,000. He is noted for a New Yorker named J. T. Little. Summaries:

First Race—Five furlongs; purse \$400; 2-year-olds, selling. 1. Lotta Creed, 96 (J. Reed), 6 to 1. 2. Laverne, 95 (A. Burton), 15 to 1. 3. Time, 1:01. Woodcock, Robert, Power, and Max Henley also ran.

Second Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Third Race—Six furlongs; purse \$600; handicap for 3-year-olds and up. 1. All Red, 110 (G. Reed), 7 to 1. 2. Time, 1:31.4. Belle of the Tribe, Little Oase and Madman also ran.

Fourth Race—One mile and a half; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Fifth Race—One mile and an eighth; purse \$400; handicap for 3-year-olds and up. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Sixth Race—Six furlongs; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Seventh Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Eighth Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Ninth Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Tenth Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Eleventh Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Twelfth Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Thirteenth Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Fourteenth Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Fifteenth Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Sixteenth Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Seventeenth Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Eighteenth Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Nineteenth Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Twentieth Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Twenty-first Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

Twenty-second Race—One mile and sixteenth; purse \$400; 2-year-olds and up; selling. 1. Hyperion, 110 (G. Reed), 3 to 1. 2. Boudier, 107 (T. Rice), 9 to 5. 3. Time, 1:47.4. Kenmare Queen and Pedro also ran.

GOOD SPORT AT MONTREAL

Great Heavens, Owned By P. T. Chinn, Wins the Laurier Handicap At Blue Bonnets.

Montreal, Que., Sept. 4.—The light rain that fell during the early afternoon had its effect on the crowd at the opening day's meeting at Blue Bonnets track, where a card of seven races was run. The feature of to-day's card was the Laurier Handicap, mile and an eighth, and the best field started that has ever been named to race for this stake. Great Heavens, owned by P. T. Chinn, won handsily by three lengths. Summaries:

First Race—Five and one-half furlongs; \$400 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Second Race—Handicap; six furlongs; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Third Race—Handicap; six furlongs; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Fourth Race—Handicap; six furlongs; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Fifth Race—Two miles; steeplechase; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Sixth Race—One and one-quarter miles; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Seventh Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Eighth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Ninth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Tenth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Eleventh Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Twelfth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Thirteenth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Fourteenth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Fifteenth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Sixteenth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Seventeenth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Eighteenth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Nineteenth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Twentieth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Twenty-first Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Twenty-second Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Twenty-third Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

Twenty-fourth Race—Three-year-olds and up; three-quarters of a mile; \$500 added. 1. M. Miller, 101 (F. Herbert), 10 to 1. 2. Magellan, 102 (A. Lang), 4 to 1. 3. Colonel Joe, 103 (J. Howard), 15 to 1. 4. Time, 1:07.4.5. Detroit, Grandissimo, Autumn Girl and Magellan also ran.

WALDO BEATS GOOD FIELD

Wins Twenty-fifth Renewal of Flatbush Stakes by Six Lengths.

RAMPART IN STEEPLECHASE

King James First In the Synony, Defeating Zienap and Pins and Needles, Only Starters.

RACQUET OUTRUNS DE MUND

SHEEPSHEAD BAY, N. Y., Sept. 4.—Waldo, the 6-to-5 favorite, today won easily the twenty-fifth renewal of the \$2,000 Flatbush Stakes, at seven furlongs, defeating a high-class field and practically setting the question of the champion 2-year-old of the year. Waldo has met and defeated the best of the year, including Sweep, winner of the Futurity.

Waldo was played to the exclusion of the entire field and was always the favorite, while Grammer was next in demand at 2 to 1, with the others ranging in prices from 7 to 1 to 30 to 1.

The field rushed into the lead in the first sixteenth and opened up a gap of four lengths, with Waldo in second place, Grammer third and Dalmatian next to last. The field continued to show the way to the turn, when Grand sent Waldo up first and won by four lengths. Dalmatian, who was slightly interfered with on the far turn, came first in the stretch and was an easy second, being six lengths before Grammer. Rampart won the Great Autumn Steeplechase. Summaries:

First Race—The Newmarket; selling; five and one-half furlongs; futurity course; \$400 added. 1. Waldo, 104 (Seville), 6 to 5. 2. 1 to 3. 3. Helen Cull, 90 (Glass), 2 to 1. 4. 5 to 1. 5. Glen Helen, 99 (McCahey), 4 to 1, even. 6. 7 to 1. 7. Zephyr also ran.

Second Race—The Great Autumn Steeplechase; about two and one-half miles; \$800 added. 1. Rampart, 135 (Huppe), 6 to 5. 2. 5 to 1. 3. Denier, 138 (Lynch), 20 to 1. 4. 3 to 1. 5. St. Nick, 142 (Allen), 5 to 1, even. 6. 7 to 1. 7. Zephyr also ran.

Third Race—The Flatbush Stakes; seven furlongs; \$2,000 added. 1. Waldo, 115 (Dugan), 6 to 5. 2. 1 to 1. 3. Dalmatian, 116 (Dugan), 12 to 1. 4. 5 to 1. 5. Zephyr also ran.

Fourth Race—The Synony; one and one-half miles; \$700 added. 1. King James, 128 (Dugan), 1 to 4. 2. 4 to 1. 3. Zienap, 129 (Martin), 7 to 1. 4. 5 to 1. 5. Pins and Needles, 106 (Grand), 7 to 1. 6. 2 to 1. 7. Zephyr also ran.

Fifth Race—The Herbert; 3-year-olds and up; selling; one mile and a sixteenth; \$500 added. 1. Blackford, 94 (Glass), 11 to 5. 2. 5 to 1. 3. Rocketstone, 106 (King), 7 to 2. 4. 7 to 1. 5. Bird of Flight, 103 (Wilson), 12 to 1. 6. 1 to 1. 7. Zephyr also ran.

Sixth Race—The Synony; one and one-half miles; \$700 added. 1. King James, 128 (Dugan), 1 to 4. 2. 4 to 1. 3. Zienap, 129 (Martin), 7 to 1. 4. 5 to 1. 5. Pins and Needles, 106 (Grand), 7 to 1. 6. 2 to 1. 7. Zephyr also ran.

Seventh Race—The Herbert; 3-year-olds and up; selling; one mile and a sixteenth; \$500 added. 1. Blackford, 94 (Glass), 11 to 5. 2. 5 to 1. 3. Rocketstone, 106 (King), 7 to 2. 4. 7 to 1. 5. Bird of Flight, 103 (Wilson), 12 to 1. 6. 1 to 1. 7. Zephyr also ran.

NAT EMERSON AND MRS. HANNAH WINNERS.

Cincinnati, O., Sept. 4.—Nat Emerson, of Cincinnati, and Mrs. Edith Hannan, of Cincinnati, were the tournament winners today in the men's and women's singles of the tri-state tennis tourney held at the Walden Hotel. Nat Emerson, a former champion, defeated Mrs. Hannan, a former champion, in the men's singles, 6-3, 6-4, 6-3. Mrs. Hannan defeated Mrs. Edith Hannan, a former champion, in the women's singles, 6-3, 6-4, 6-3.
